

Declaration of no conflict of interest

This document serves to advise that Momentous Consulting Ltd has had limited involvement with Orbus Business Services (ORBS) since August 2017. We confirm that we are not employed nor have we received any remuneration in the role as an ongoing advisor since Sept 2017.

To clarify the entries made in the recent Orbus Business Services Ltd audit, Momentous did assist ORBS with their initial entry into the Electricity Market which concluded in August 2017. Since that date we have answered questions of a nature that is normally conducted for any participant. For example, assistance to understand terms (in particular acronyms) and where to find Code references or who to approach for assistance. This has not involved the creation of any process or development of any systems.

We are removed from the processes and functions carried out by ORBUS on a daily basis until such time they engage us to act as an advisor. I will advise of any renewed conflict of interest when and if this occurs. We understand that the reference in the audit relates to the previous work done prior to August 2017 and if ORBS did need assistance in the future they would possibly contract Momentous Consulting Ltd.

Signed: 

Date: 8 August 2018
