(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

**2. Exemption**—(1) AccuCal Limited (“AccuCal”) is exempted from complying with the obligation in clause 4(2)(a) of Schedule 10.7 of the Electricity Industry Participation Code 2010 (“Code”) to ensure that its metering installation configuration does not use subtraction to determine submission information.

(2) This exemption applies only to installation control point (“ICP”) 0009805800AL991.

**3. Term**—This exemption expires at the earlier of:

- a. the close of **30 June 2025**;
- b. the date on which Meridian Energy Limited (“Meridian”) is no longer recorded in the registry as being the trader for ICP 0009805800AL991;
- c. the date on which AccuCal is no longer recorded in the registry as being the metering equipment provider for ICP 0009805800AL991; and
- d. when embedded generation is injected through any one of the four meters currently used in the calculation of submission information by subtraction.

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- a. AccuCal will otherwise incur significant metering installation expenditure that would outweigh any benefit resulting from compliance;
- b. AccuCal cannot comply with the obligation in clause 4(2)(a) of Schedule 10.7 of the Code until Meridian authorises AccuCal to install new metering installations at the Clandeboye dairy factory;
- c. deriving the submission information from the metering installations by subtraction is as accurate as it would be if it was derived using directly metered data;
- d. the exemption will have no impact on any other participant or service provider, and will not affect any other Code provision; and
- e. granting the requested exemption meets the requirements in section 11(2) of the Act.

Dated at Wellington this 19th day of December 2016.
