Dear Shane

**Amendment to Wholesale Information and Trading System Service Provider Agreement**

I refer to the Wholesale Information and Trading System Service (WITS) Provider Agreement (MOSPA) between the Electricity Authority (Authority) and NZX Limited, dated 30 October 2015, relating to services provided by NZX Limited as the WITS manager.

The Authority would like to amend the functional specification in Schedule 3 of the MOSPA, as follows:

- changes for WITS-CR53 concerning new instantaneous reserve data
- changes for WITS-CR51 concerning one hour gate closure and NRSS block security constraint information

A copy of the functional specification with these proposed amendments incorporated is attached to this letter. If you agree to it, the amended functional specification in Schedule 3 of the MOSPA will become version 4.11.

Please confirm your acceptance of the amendments proposed in this letter by signing and returning a copy of this letter to me. These proposed amendments to the MOSPA will take effect on the date you sign this letter.

Yours sincerely

*R. Blundell*

Rory Blundell  
**General Manager Market Performance**

I, Shane Dinnan, agree for and on behalf of NZX Limited to the amendment to the MOSPA set out in this letter.
