## Summary of information submitted

---

### ***Who are you submitting as?***

Individual

### ***First name***

Tui

### ***Last name***

Williams

### ***Email***

[REDACTED]

### ***1. Which of the proposed funding options do you support for our Electricity Industry Governance and Market Operations appropriation?***

Option 1

### ***2. Which of the Authority's activities are top priority for you, and which other activities do you think should be traded off against these priority activities?***

Pitting the cost on the third parties is what's most important, infrastructure basically pays for itself longterm and the lines trust themselves do not need such a big cut and if third parties want in then they can take a cut the person you won't make pay is the consumer. How dare you charge the consumer before a third party wanting to make money,I assure you they are not a third party out of kindness for the environment or wanting to help consumers needs except to make money.

***5. If you have any other comments on the Authority's levy consultation, please add those here***

I find you greedy,you allow greed as long as all around you allow greed so as to hide your greed,how dare you think you are not making so much money ,the third parties as well that you think you can put any cost on us, costs all around could be halved and you will still be making too much money and you are all in on the greed,each person working in the field is up marketing prices thereby inflating as you go the costs,it's time you all resigned and let a child run it,they would be more honest. Solution,resign

***Written submission and/or supporting documentation***

***The Authority intends to publish all submissions. Are you happy for the Authority to publish your submission?***

Yes
