Peter Smith  
Delivery Manager  
Jade Software Corporation (NZ) Limited  
5 Sir Gil Simpson Drive  
Christchurch 8053

By email: [psmith@jadeworld.com](mailto:psmith@jadeworld.com)

Dear Peter

**Variation to Registry Manager Market Operator Service Provider Agreement**

I refer to the Registry Manager Market Operator Service Provider Agreement (MOSPA) between the Electricity Authority (Authority) and Jade Software Corporation (NZ) Limited, dated 25 January 2017, relating to services provided by Jade Software Corporation (NZ) Limited as the registry manager.

The Authority would like to vary the functional specification in Schedule 3 of the MOSPA, as follows:

- Update to SD-020
  - CR-1273 (Config) New Fuel Type codes:
    - Additional fuel type codes
  - CR-1208 Planned outage communication codes/ EIEP5A Registry Format:
    - New planned outage communication codes used by EIEP5A processing of planned ICP service interruptions (this was a functional specification change mistakenly not included in version 22.39)

A copy of the functional specification with these proposed variations incorporated is attached to this letter. If you agree to it, the varied functional specification will become version 22.40 in Schedule 3 of the MOSPA.

Please confirm your acceptance of the variations proposed in this letter by signing and returning a copy of this letter to me. These proposed variations to the MOSPA will take effect on the date you sign this letter.

Yours sincerely,

Mark Herring  
**General Manager – Corporate and Market Services**

I, Peter Smith, agree for and on behalf of Jade Software Corporation (NZ) Limited to the variation to the MOSPA set out in this letter.

Date: Jan 29, 2024
