* On 12 and 13th a planned Transpower ISP switchover adversely affected system performance. This resulted in periods of degradation, and occasionally timeouts when accessing the FTR Portal. While there was an auction on the 12th, the ISP switchover occurred outside of business hours which flowed into the morning of the 13th. Although we saw some latency during the day on the 12th, as far as we can tell the impact was minimal and did not affect bid uploads as no participant reached out to say this was impacting their usability of the FTR portal - we will monitor this.

5.2. Browser Access for AUGUST 2026
