Dear Shane

Amendment to Clearing Manager Market Operator Service Provider Agreement

I refer to the Clearing Manager Market Operator Service Provider Agreement (MOSPA) between the Electricity Authority (Authority) and NZX Limited, dated 30 October 2015, relating to services provided by NZX Limited as the clearing manager.

The Authority would like to vary the functional specification in Schedule 3 of the MOSPA to reflect the following amendment:

- CR-RM79: Changes related to intermittent generation (PE-040) and (RV-070)

A copy of the functional specification with these proposed variations incorporated is attached to this letter. If you agree to it, the varied functional specification will become version 21.0 in Schedule 3 of the MOSPA.

Please confirm your acceptance of the variations proposed in this letter by signing and returning a copy of this letter to me. These proposed variations to the MOSPA will take effect on the date you sign this letter.

Yours sincerely

R Blundell.

Rory Blundell
General Manager Market Performance

I, Shane Dinnan, agree for and on behalf of NZX Limited to the amendment to the MOSPA set out in this letter.

Date: 5/11/19
