Dear Shane

**Amendment to Wholesale Information and Trading System Market Operator Service Provider Agreement**

I refer to the Wholesale Information and Trading System (WITS) Market Operator Service Provider Agreement (MOSPA) between the Electricity Authority (Authority) and NZX Limited, dated 30 October 2015, relating to services provided by NZX Limited as the WITS manager.

The Authority would like to vary the functional specification in Schedule 3 of the MOSPA to reflect the following amendment:

- CR-RM79: Changes related to intermittent offers (UN-010), (SI-010), (SI-020) and (VI-010).

A copy of the functional specification with these proposed variations incorporated is attached to this letter. If you agree to it, the varied functional specification will become version 6.0 in Schedule 3 of the MOSPA.

Please confirm your acceptance of the variations proposed in this letter by signing and returning a copy of this letter to me. These proposed variations to the MOSPA will take effect on the date you sign this letter.

Yours sincerely

Rory Blundell  
**General Manager Market Performance**

I, Shane Dinnan, agree for and on behalf of NZX Limited to the amendment to the MOSPA set out in this letter.

Date: 5/11/19
