List of non-conforming and conforming grid exit points

Date: 18 May 2014

Introduction

1. Clause 13.27G of the Electricity Industry Participation Code 2010 (Code) requires the Authority to publicise and maintain a list of all non-conforming and conforming grid exit points (GXPs), including:

   (a) the mean demand (in MW) for each GXP calculated in accordance with clause 1(b) of Schedule 13.7 of the Code; and

   (b) if the mean demand for a GXP is 10 MW or more, the unpredictability measure for the GXP calculated in accordance with clause 1(c) of Schedule 13.7 of the Code.

2. The following two tables are designed to meet these requirements.

Version Table

Version	Date	Change
2	14/5/2012	Original
3	22/11/2012	Added CUL0661, PAO1101 as Conforming (deemed)
4	19/5/2014	Restored TNG0111 to the non-conforming list as this was accidentally left off the November 2012 version Added 8 new GXP's as conforming (deemed) Removed 25 conforming GXP's that have been end dated
