Subject: RE: 9 Aug 21 prep meeting - CONFIDENTIAL

Thanks Murray (& Grant s9(2)(a))

As discussed, Grant has agreed to do the heavy lifting from an EA perspective – reprising the work he did for the 2019 UTS.

As we also touched on, I have chatted to s9(2)(a) about the need to do some planning so we would want to ensure he is included (+ whoever is appropriate in his team).

Goal is to provide an update on any further decisions from the Authority at the end of the week. Grant & I will aim to ensure the relevant people are kept advised of developments. However, in at least the short run there will continue to be confidential matters that will need to be kept fairly tightly within this core group. On that basis we may want to continue to manage the internal comms for each organisation separate to these high-level discussions, at least until next week when we should have a better idea of the approach that is being proposed.

Look forward to catching up soon.

Kind regards,
Saki

Subject: 9 Aug 21 prep meeting

Hi Saki,

I've socialised the probability of a planning meeting next week with those who'd be delivering the bits of work required of Transpower to settle the markets for 9 Aug 2021 – FTR Manager, SO (ancillary services), and GO (Loss and constraints excess). In my email I asked if others wanted to attend the meeting when it occurs.

s9(2)(a)@ems.co.nz would like to attend. Ian's team would be responsible for the settlement values for ancillary services.

If anyone else volunteers I'll let you know or just forward the invite once received.

I'll dig out our test plan and TAS 101 SOS which were used for the Dec-2019 UTS resettlement, along with the project close out report. These might prove handy start points.

To confirm I didn't mention anything you shared about the EA's thinking. This meeting is a consequence of the high court decision.

Cheers
Murray
