Subject: Re: Pricing error

Hello,

I received the following update from the Clearing Manger:

August 9 Interim Price Publication External Inbox x Print Share

 **NZX Clearing Manager**
to ▾ 18:01 (0 minutes ago) ☆ ↶ ⋮

Good afternoon

Earlier this afternoon prices were published for trading periods 37-42 for August 9 2021 without scarcity pricing. Unfortunately an error has been made resulting in prices being finalised without a virtual provider element which resolves pricing infeasibilities.

Please disregard these prices until further notice. The clearing manager is working through a fix and will advise accordingly.

Given this, please consider the Pricing Error Claim I made earlier this afternoon withdrawn.

Have a good weekend.

Kind regards,

s9(2)(a)

Hello,

Haast is claiming a pricing error has been made regarding calculation of final prices for 9 August 2021, which were published on WITS today.

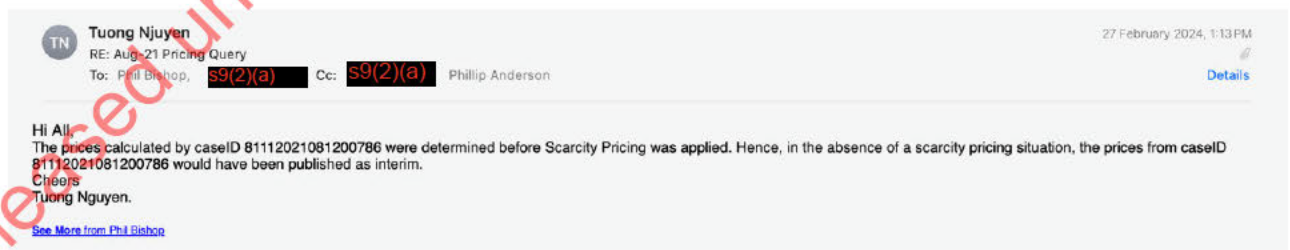

The prices published today are not consistent with the prices generated by the Pricing Manger which excluded scarcity pricing being applied in 2021,

and published by the Authority in its preliminary UTS decision and on its website:

Figure 1: Prices with and without scarcity pricing

The Authority has recently re-confirmed the prices which should have been published in the absence of Scarcity Pricing were as published in the preliminary UTS decision.

Haast is requesting you correct this error.

Kind regards,

s9(2)(a)
