Tēnā koutou,

NB NZX removed due to \$'s being contained in both attached docs.

As promised earlier today – attached are relevant docs from the effort to RE-settle 27 days of Dec-2019 following the prescribed actions to correct (ATC) the Dec-2019 UTS. The docs are the statement of work (SOW) and the project closeout report.

Obviously there are notable differences between the 2 events (6 pds vs 27 days, settling vs resettling) but many of the activities required to effect settlement will be similar.

NB on closer inspection (memory fail) these documents did NOT cover Transpower as FTR Manager.

Tēnā koutou,

Thanks Grant, good to get this underway.

I've asked those who had expressed a wish to attend this meeting when I foreshadowed it to them if the time slot suits. I'll come back when I've got responses from them.

As discussed with Saki recently it would be useful to know whether the Authority will engage an auditor for this or not.

I'll dig out the relevant docs from the Dec-19 UTS and share prior to this meeting. Undoubtedly there will be differences but they will give us a reference point.

Hi All, (those on the cc list, this is FYI only)

We need to get together to start the process of arranging settlement. With [REDACTED] being sick, I suggest we do it early next week. Matt, you need to manage the CR process (incl approvals) but Saki, Murray [REDACTED] and myself can manage the operational details.

I suggest Tue 12th, any time between 10am and 1pm. We can meet here in our offices. Murray [REDACTED] let me know what time suits you/your teams.

Agenda is:

- determine the tasks that need to happen
- determine the data needed, source, and availability
- propose some timelines

We want to publish a market brief item giving industry an indication of process and indicative timeline ASAP after

Cheers
