Hi Doug

I expect you have a time frame you are working to?
Our preference is to meet internally in the office (rather than from home) to discuss this and come up with a refined proposal for you.
That would mean meeting Monday & responding after that. In the meantime we still have someone looking at our data sources.

Regards
Paul

Dear Paul

As part of our review of the spot market we need to understand the price paid for gas over our review period.

This information is relevant for our study as the gas price affects the spot electricity price either directly by gas generators being marginal, or indirectly through water values and the opportunity cost of the gas for other uses.

To this end could you please provide all natural gas sale and/or purchase agreements, contracts, term sheets, heads of agreements or other documents evidencing gas supply and/or purchase commitments that:

- (a) were entered into on or after 1 January 2017
- (b) were for a term of one (1) or more months; and
- (c) for volumes equal to or greater than 20 TJ per annum, or which permit off take at or above that level but where the contract does not specify an annual volume.

To avoid doubt, we are not asking for information on spot trades on EMStradepoint.

Happy to discuss
Kind regards
Doug Watt
