S9(2)(b) and S9(2)(ba)(i)

---

Dear S9(2)(a)

As you may be aware the Authority is conducting a review of competition in the spot market. The Review is based on the competition information paper available here.

<https://www.ea.govt.nz/monitoring/market-performance-and-analysis/what-we-monitor-in-the-industry-and-market/>

Part of measuring the performance of the spot market is to understand profit (see table three in the information paper).

To this end the Authority has been using public data to understand profitability in the five largest gentailers.

We have done as much as we can with the data that is publicly available and we still have questions about the sources of changes to profit. We are therefore requesting that the information in the attached spreadsheet be provided.

The spreadsheet contains specific technical guidance for those providing the data.

We think what we have asked for is able to be provided from the same systems that prepare the public data.

If you can provide this data by 30 June 2021 we would appreciate it.

If you have any questions regarding this request please contact me.

If your technical people have technical questions I can put them in touch with someone that can answer their questions.

If for any reason you are unwilling or unable to provide this information, then if you can let me know ASAP please.

Regards

Doug
