Dear Shane

**Amendment to Reconciliation Manager Market Operator Service Provider Agreement**

I refer to the Reconciliation Manager Market Operator Service Provider Agreement (MOSPA) between the Electricity Authority (Authority) and NZX Limited, dated 30 October 2015, relating to services provided by NZX Limited as the reconciliation manager.

The Authority would like to amend the following clauses under Schedule 2 (non-functional specifications) of the MOSPA:

- **Clause 2.3** – refreshes of the user acceptance testing (UAT) environment are now only required annually, or on reasonable request
- **Clause 4.1(a)** – Microsoft Edge replaces Internet Explorer as a supported browser
- **Clause 8.2** – to allow NIST as an alternative to NZISM
- **Clause 14.2** – Systems Delivery Agreement updated to Master Systems Delivery Agreement.

If you agree to it, Schedule 2 of the MOSPA (non-functional specifications) will become version 1.2.

Please confirm your acceptance of the amendments proposed in this letter by signing and returning a copy of this letter to me. These proposed amendments to the MOSPA will take effect on the date you sign this letter.

Yours sincerely

Richard Eglinton  
Chief Operating Officer

ADXLetter131

I, Shane Dinnan, agree for and on behalf of NZX Limited to the amendment to the MOSPA set out in this letter dated

Date: 22/06/2021
