INTRODUCTION

- A. The Distributor and Trader are parties to a Distributor Agreement, and have agreed to enter into this agreement for additional services relating to the provision of Consumption Data in accordance with a notice given by the [Distributor or Trader] under clause 7 of Schedule 12A.1 of the Code.

TERMS

1 Introduction

This Agreement sets out provisions that apply in relation to requests by the Distributor for Consumption Data held by the Trader or the Trader's Metering Equipment Provider.

2 Consumption Data requests

The Distributor may request Consumption Data by giving written notice to the Trader, which must set out:

- (a) details about the Consumption Data requested;
- (b) the purposes for which the Distributor will use the Consumption Data;
- (c) the persons to whom the Consumption Data will be disclosed by the Distributor;
- (d) for how long the Distributor wishes to use the Consumption Data; and
- (e) whether the request is for ongoing supply of Consumption Data at specified intervals.

3 Provision of Consumption Data

- (1) Subject to clause 3A, the Trader must:

- (a) procure that its Metering Equipment Provider supplies to the Distributor any Consumption Data requested under clause 2 that is held by the Metering Equipment Provider or authorise the Distributor to procure this data directly from the Metering Equipment Provider; and
- (b) supply to the Distributor any Consumption Data requested under clause 2 that is held by the Trader rather than the Trader's Metering Equipment Provider.

- (2) Despite subclause (1)(a) and subject to clause 6(2), the Trader may supply to the Distributor any Consumption Data requested under clause 2 that is held by the Metering Equipment Provider if doing so will be quicker and more cost effective for the Distributor than the Trader complying with the requirements of subclause (1)(a).

- (3) Consumption Data that is supplied must be provided within 10 Working Days of the Distributor's request, and if the request is for ongoing supply subsequently at the intervals specified in the Distributor's notice under clause 2 but subject to agreement by the parties under clause 3A(c) if the frequency of access requested by the Distributor is more than once every month.

- (4) Despite subclause (3) the Trader is not responsible for any delay in the supply of Consumption Data due to circumstances beyond its control.

- (5) The Trader must use reasonable endeavours to ensure that Consumption Data that is supplied in accordance with subclause (1):

- (a) for all time-of-use meters to which the Consumption Data relates, is half hourly data collected from the relevant Metering Equipment in accordance with EIEP3;
- (b) for all other meters to which the Consumption Data relates, is non-half hourly data at the frequency for which it was collected;

- (c) is in a format requested by the Distributor, if this is achievable using reasonable endeavours, or if it is not achievable, is in a structured, commonly used, and machine-readable format;
- (d) does not introduce a virus, Trojan horse, malicious code or similar when transmitted; and
- (e) is transmitted in an encrypted form that is current best practice and commonly supported.

- (a) the purposes for which the Distributor will use the Consumption Data are Permitted Purposes or Other Purposes (in which case clause 4 applies);
- (b) the persons to whom the Consumption Data will be disclosed by the Distributor are persons who are permitted to access the Consumption Data under this Agreement, or a Data Agreement where clause 4 applies; and
- (c) the frequency of access requested by the Distributor is no more than once every month, unless otherwise agreed by the parties.

4 Provision of Consumption Data on other terms or for Other Purposes

- (1) If the purposes for which the Distributor will use the requested Consumption Data include Other Purposes or the Distributor seeks access on terms that are different to the terms in clause 3, the parties may agree to enter into an agreement ("Data Agreement") in the form set out in clause 20, which sets out:
 - (a) the Consumption Data to be provided by the Trader's Metering Equipment Provider or the Trader to the Distributor;

 - (d) the frequency at which Consumption Data will be supplied;
 - (e) for how long the Distributor may use the Consumption Data; and

 - (b) supply to the Distributor the Consumption Data that is held by the Trader rather than the Trader's Metering Equipment Provider,
in accordance with the Data Agreement and clause 3(5)(d)-(e).
- (3) Despite subclause (2)(a) and subject to subclause 6(2), the Trader may supply to the Distributor any Consumption Data that is held by the Metering Equipment Provider if doing so will be quicker and more cost effective for the Distributor than the Trader complying with the requirements of subclause (2)(a).
- (4) The Data Agreement may be amended, with the agreement of both parties, from time to time.

5 Use of Consumption Data

- (1) The Trader grants the Distributor a non-exclusive, limited, non-transferrable (except in accordance with this Agreement) licence to use and disclose the Consumption Data supplied in accordance with this Agreement, subject to the following:
 - (a) the Distributor may use the Consumption Data only for the Permitted Purposes as defined in this Agreement and any Other Purposes agreed by the parties as set out in a

- (2) The Distributor agrees that any Consumption Data provided to the Distributor will be:
- (a) at the Distributor's cost, as set out in clause 6, so that neither the Trader's Metering Equipment Provider nor the Trader is responsible for any reasonable costs, charges, or other expenses associated with procuring the supply of, or providing the Consumption Data to, the Distributor; and
 - (b) at the Distributor's risk, and the Trader makes no express or implied warranties as to the accuracy or completeness of the Consumption Data, nor its suitability for any specified purpose.

5A Combination of Consumption Data

- (1) If the Distributor combines or intends to combine any Consumption Data with any other data or database for a Permitted Purpose or an Other Purpose, the Distributor must ensure the combination, the reasons for the combination and the corresponding Permitted Purpose or Other Purpose are documented in a Data Combination Schedule in the form set out in clause 21A.
- (2) Before the Distributor combines any Consumption Data that has been provided to it under clause 3 or under a Data Agreement in accordance with clause 4 with any other data or database for a Permitted Purpose or Other Purpose, the Distributor must give the Trader at least 5 Working Days' notice of the combination as documented in the Distributor's Data Combination Schedule, unless:
 - (a) that combination is within the scope of an existing entry in the Distributor's Data Combination Schedule previously notified by the Distributor to the Trader in accordance with this clause 5A; or
 - (b) the Distributor reasonably considers it needs to use that combination urgently in order to respond to an event that poses a risk to the supply of electricity, the Network, the Distributor's normal business operations, and/or to human health and safety, in which case the Distributor will give notice to the Trader of the combination as soon as reasonably practicable (and no later than 10 Working Days after making the combination).
- (3) The Distributor must make its Data Combination Schedule available to the Trader promptly on the Trader's request at any time during the term of this Agreement.

Following the Distributor's receipt of a Combination Dispute Notice, the matter will be referred to dispute resolution in accordance with clause 18(5) and the parties must attempt to resolve the dispute in good faith within 15 Working Days of receipt of the Combination Dispute Notice (**Resolution Period**).
- (5) If the Trader has given the Distributor a Combination Dispute Notice and has complied with the suspension requirements in subclause (6), then:
 - (a) if the Distributor has not yet used the Specified Combination, the Distributor must not start using the Specified Combination; and
 - (b) if the Distributor is already using the Specified Combination, the Distributor may continue doing so during the Resolution Period, but must cease use of the Specified Combination upon the expiry of the Resolution Period if the parties fail to resolve the matter by mutual agreement.

- (7) The Distributor's obligation not to use a Specified Combination under subclause (5):
 - (a) only applies in respect of Consumption Data provided to the Distributor by the Trader (including any Consumption Data provided to the Distributor by the Trader's Metering Equipment Provider on behalf of the Trader) who has given the Distributor a Combination Dispute Notice, and does not apply to any consumption data provided to the Distributor by other traders that is included in the Specified Combination, or to any other data combination which only uses consumption data provided by any other traders); and
 - (b) will last until the dispute is resolved by mutual agreement (including as to costs) or as determined by a court or other dispute resolution forum to which the parties have submitted which, in each case, permits the Distributor's use of the Specified Combination. 8 Confidentiality obligations

The Distributor agrees that it will:

- (a) preserve the confidentiality of, and will not directly or indirectly reveal, report, publish, transfer, or disclose any Consumption Data except as provided for in this Agreement; and

9 Disclosure of Consumption Data

 - (a) to its employees and directors to the extent that such Consumption Data is required to be known by such persons in connection with the Permitted Purposes or Other Purposes;
 - (b) to its agents, advisors, or contractors to the extent that such Consumption Data is required to be known by such persons in connection with the Permitted Purposes or Other Purposes, on terms that are no less onerous than those set out in this Agreement (unless otherwise agreed in writing by the Trader) and only on the basis that the Distributor is liable for the acts and omissions of such agents, advisors, or contractors in connection with their use of the Consumption Data;
 - (c) to a Customer, if the Consumption Data relates to that Customer, and that Customer has requested the Consumption Data from the Distributor; or
 - (d) if the Distributor is required to disclose the Consumption Data by:
 - (i) law, or by any statutory or regulatory body or authority; or
 - (ii) any judicial or other arbitration process.
- (2) If the Distributor discloses Consumption Data under subclause (1)(d), the Distributor must notify the Trader of the disclosure (unless such notification is prohibited bylaw).
- (3) The Distributor may not, except as expressly set out in a Data Agreement or with the prior written approval of the Trader, disclose any Consumption Data to any employee, director, agent, advisor, contractor, or related company (as defined in section 2(3) of the Companies Act 1993) of the Distributor who is involved in the offering, provision, marketing, or sale of:
 - (a) electricity generation, retail, or storage goods or services (including batteries, solar, and other products and services sold on a competitive basis) to Customers; or

- (7) To avoid doubt, nothing in this Agreement prevents the Distributor from using or disclosing information that is derived from aggregated Consumption Data if the information is used or disclosed in such a form that could not reasonably be expected to identify any individual, single ICP, or Trader to which the Consumption Data relates.

10 Information security plan

- (1) The Distributor must maintain an information security plan to ensure that only Data Team members are able to access the Consumption Data.
- (2) The information security plan must:

 - (e) implement, to the extent practicable, measures to monitor or prevent the transmission of Consumption Data using external electronic storage devices (for example USB flash drives);
 - (f) include measures to protect electronic files containing Consumption Data (for example password protection and data encryption);
 - (g) include provision for the secure storage of any Consumption Data in the form of physical media; and
 - (h) include a process to:
 - (i) inform the Trader, as soon as practicable and in any case no later than 72 hours after discovery, if the Distributor becomes aware of any loss, unauthorised access, use, modification, or disclosure, or other misuse of the Consumption Data; and
 - (ii) at the request of the Trader, provide all such assistance in relation to the mitigation and remediation of such breach as the Trader may require.

11 Steps to address breaches

If the Distributor becomes aware of a breach of an obligation in this Agreement or the information security plan, the Distributor must:

- (2) The Distributor's liability for breach of this Agreement will not be limited by this Agreement or any other agreement entered into by the parties.
- (3) The Distributor acknowledges and agrees that:
 - (a) in the event of an alleged breach of the Distributor's obligations under this Agreement, damages may not be an adequate remedy and the Trader will be entitled to seek equitable relief, including injunction and specific performance, in addition to all other remedies available to the Trader; and
 - (b) the rights, powers, and remedies provided in this Agreement are cumulative and are in addition to any rights, powers, or remedies provided by law.

 - (d) the Distributor must provide the auditor with all reasonable access to all books, accounts, records, documents, and systems reasonably required by the auditor; and
 - (e) the auditor's costs will be borne by the Trader, unless any audit determines that there has been non-compliance with the Distributor's obligations in respect of Consumption Data supplied under this Agreement (in which event, the costs must be met by the Distributor).
- (2) The Trader has the right to publish the results of the audit.
- (3) More than one Trader may collectively conduct an audit under subclause (1) as if the Traders were a single Trader.

 - (b) the audit will be at the Distributor's own cost; and
 - (c) the Trader must treat any information concerning the audit provided by the Distributor or its auditor as confidential.

 - (a) the breach is an Event of Default for the purposes of this Agreement;
 - (b) the other party must use reasonable endeavours to speak with the Chief Executive or another senior executive of the Defaulting Party in relation to the Event of Default, and to notify him or her of the other party's intention to exercise its rights under this clause 14; and
 - (c) the Defaulting Party must continue to do all things necessary to remedy the breach as soon as practicable.
- (4) If the Event of Default is any of the following:

 - (b) a material breach of the Defaulting Party's obligations under this Agreement that is not in the process of being remedied to the reasonable satisfaction of the other party; or
 - (c) the Defaulting Party has failed on at least 2 previous occasions within the last 12 months to meet an obligation under this Agreement within the time specified and has received notice of such failures from the other party in accordance with clause 14 and, whether each individual failure is in itself material or not, if all such failures taken cumulatively materially adversely affect the other party's rights or the other party's ability to carry out its obligations under this Agreement or, if the Defaulting Party is the Distributor, the Trader's ability to carry out its obligations under any agreement with any other industry participant,then no earlier than 1 Working Day after the end of the timeframe set out in clause 14(1), the other party may do 1 or both of the following:
 - (d) issue a notice of termination in accordance with clause 15(2);
 - (e) exercise any other legal rights available to it.
- (5) If a breach is not an Event of Default, the non-breaching party may:

 - (b) exercise any other legal rights available to it.

performance of any material provision of this Agreement by either party has to a material extent become illegal and the parties acting reasonably agree that despite the operation of any severance clauses in this Agreement it is not practicable for this Agreement to continue.

- (2) If a party has breached this Agreement and the breach is an Event of Default, or a party has become subject to an Insolvency Event, the other party may (immediately in the case of an Insolvency Event, and not less than 1 Working Day after the end of the timeframe set out in clause 14(1) in the case of an Event of Default) issue a notice of termination to the defaulting party, effective either:

PART II – PAYMENT OBLIGATIONS

7. DISTRIBUTION SERVICES PRICES AND PROCESS FOR CHANGING PRICES

- 7.1 **Distribution Services pricing information:** Schedule 7 sets out information about how the Trader can access information about the Distributor's:
 - (a) Pricing Structure;
 - (b) Price Categories;
 - (c) Price Options (if any); and
 - (d) Prices.The Distributor must ensure that the information it makes available in accordance with Schedule 7 is available in a standard, downloadable electronic document format in a form that permits electronic search and copy functions.
- 7.2 **Changes to Pricing Structure, Price Categories, Price Options, and Prices:** The Distributor may change:
 - (a) its Prices as set out in clauses 7.3 to 7.7; and
 - (b) its Pricing Structure as set out in clauses 7.4, 7.6, and 7.7; and
 - (c) its Price Categories and Price Options (if any) at any time, provided that the change does not have the effect of increasing 1 or more Prices.
- 7.3 **Price changes:** Unless otherwise agreed with the Trader, the Distributor may not change its Prices more than once in any 12 month period ending on 31 March, unless a change:
 - (a) results from a material change in a cost that is a pass-through cost or a recoverable cost specified in a determination of an input methodology by the Commerce Commission under Part 4 of the Commerce Act 1986 in respect of the services provided by the Distributor;

- (b) relates to the Distributor providing new Distribution Services or materially changing existing Distribution Services, provided that any proposed Price change must only apply to ICPs affected by the new or changed Distribution Services; or
- (c) results from a change in the law.

Nothing in this clause prevents the Distributor from changing a Price at any time with the agreement of the Trader.

7.4 Process to change Pricing Structure: If the Distributor intends to make a change to its Pricing Structure that will materially affect the Trader or 1 or more Customers, the Distributor must first consult with the Trader about the proposed change. If appropriate, the Distributor may consult jointly with the Trader and all other traders that are affected by the proposed change. Without limiting anything in clause 7.3, and unless the parties agree otherwise, the Distributor must:

- (a) **comply with the Code:** comply with any provisions in the Code relating to the pricing of Distribution Services; and
- (b) **notify Trader of final Pricing Structure:** provide the Trader with information about the final Pricing Structure and the reasons for the Distributor's decision, in a manner that clearly sets out the change made, at least 40 Working Days before the change comes into effect.

7.5 Notice of Price changes: In addition to any notification requirements under clause 7.4, if the Distributor makes or intends to make a Price change, the Distributor must:

- (a) give the Trader at least 40 Working Days' notice of the Price change, unless the Distributor is required by law to implement the Price change earlier, in which case the Distributor must give as much notice as is reasonably practicable;
- (b) if the Price change will result in an ICP or a group of ICPs being allocated to a different Price Category, without limiting clause 8, the Distributor must give the Trader a mapping table that clearly shows:
 - (i) the new Price Category to which each affected ICP or group of ICPs is to be allocated; and
 - (ii) the Price Category that applied to each affected ICP or group of ICPs before the change was made; and
- (c) if the Price change is in respect of ICPs that have either a category 1 or category 2 metering installation, the Distributor must notify the Trader of the Price change in accordance with EIEP12.

7.6 Pricing Structure and Price change disputes: Once a change to a Pricing Structure has been finalised in accordance with clause 7.4, or a Price change is notified in accordance with clause 7.5, the Trader may raise a Dispute under clause 23 in respect of the Pricing Structure or the Price change only if the Trader considers that the Distributor has not complied with clause 7.4 or 7.5 (as the case may be). If a Dispute is raised, the Trader must continue to pay the Distributor's Tax Invoices until the Dispute is resolved.

7.7 Changes containing an error: If the Trader identifies an error in the Pricing Structure finalised and notified in accordance with clause 7.4, or an error in a Price change notified in accordance with clause 7.5 that arises from an obvious error in applying the Pricing Structure, the Trader must bring that error to the Distributor's attention as soon as practicable after becoming aware of the error. The Distributor may correct an error, including an error that it identifies itself, without following the process under clause 7.4 or giving notice under clause 7.5(a) (as the case may be), provided that the correction of the error must not have a material effect on the Trader or 1 or more Customers. To avoid doubt, the correction of an error in accordance with this clause is not a Price change for the purposes of clause 7.2.

8. ALLOCATING PRICE CATEGORIES AND PRICE OPTIONS TO ICPS

- 8.1 Distributor allocates Price Category:** The Distributor must:
- (a) allocate a Price Category to each ICP on its Network; and
 - (b) change the Price Category allocated to an ICP on its Network if necessary because the attributes of the ICP have changed.
- 8.2 Allocation of Price Categories if more than 1 option:** If there are 2 or more Price Categories within the Distributor's Pricing Structure for which an ICP is eligible, the Distributor must allocate 1 of the eligible Price Categories to the ICP.
- 8.3 Matters to have regard to in allocating Price Category:** In allocating a Price Category to an ICP or changing the Price Category allocated to an ICP, the Distributor must have regard to the following:

 - (b) the attributes of the ICP; and
 - (c) if known and relevant:
 - (i) the Trader's or Customer's preference for a particular Price Category in respect of which the ICP is eligible;
 - (ii) the meter register configuration(s) of the Metering Equipment and any Load Control Equipment installed for the ICP, which may determine the Price Option or Price Options that apply if more than 1 Price Option is defined for the relevant Price Category;
 - (iii) the ICP's historic demand profile;
 - (iv) the Customer's capacity requirements; and
 - (v) any other factors.
- 8.4 Trader may request allocation of an alternative eligible Price Category:** At any time, the Trader may request that the Distributor allocate an alternative Price Category to an ICP, and must provide any information necessary to support its request. If the Distributor, acting reasonably, agrees that the ICP meets the eligibility criteria for the requested alternative Price Category, the Distributor must apply the change (but not retrospectively, unless it agrees otherwise) and advise its decision to the Trader within 5 Working Days (or such longer period as agreed between the Distributor and the Trader) after receipt of notice of the Trader's request. If the Distributor declines the request, it must provide the reasons for its decision.
- 8.5 Trader to select Price Option to match meter register configuration:** If the Distributor provides options within a Price Category that correspond to alternative eligible meter register configurations ("**Price Options**"), the Trader must:
- (a) select the Price Option that corresponds to the configuration of each meter register installed at the relevant ICP;
 - (b) notify the Distributor of that selection in accordance with the relevant EIEP; and
 - (c) if the meter register configuration for the ICP changes, change the Price Option to match the new configuration and notify the Distributor of the change in accordance with the relevant EIEP.
- 8.6 Trader request for reallocation of Price Category if it considers Price Category has been Incorrectly Allocated:** Under this clause 8.6 and clauses 8.7 and 8.9, a Price Category is "**Incorrectly Allocated**" to an ICP only if the ICP was ineligible for the Price Category allocated by the Distributor based on the relevant information available to the Distributor at the time it made the allocation. If the Trader reasonably considers that a Price Category was Incorrectly Allocated to an ICP, the Trader must notify the Distributor of the reasons why it considers that the Price Category was Incorrectly Allocated and identify the Price Category that the Trader considers should have been allocated to the ICP, which must be a Price

Category for which the ICP is eligible. The Distributor must advise the Trader within 10 Working Days after receipt of the Trader's notice whether it agrees to allocate the requested Price Category (the "**Corrected Price Category**") to the ICP, such agreement not to be unreasonably withheld, and must provide the reasons for its decision. To avoid doubt, this clause 8.6 does not apply if the Distributor has already provided notice to the Trader that the relevant Price Category is Incorrectly Allocated under clause 8.9.

- 8.7 **Credit following correction:** If the Distributor allocates a Corrected Price Category to an ICP following notice from the Trader given under clause 8.6, the Distributor must:
- (a) commence charging the Trader in accordance with the Price(s) that applies to the Corrected Price Category with immediate effect; and
 - (b) subject to clause 8.8, and by issuing a Credit Note payable in the next monthly billing cycle, credit the Trader with an amount (if positive) equivalent to:
 - (i) the charges paid by the Trader in respect of that ICP in the period from the later of:
 - (A) the Commencement Date;
 - (B) the date the Distributor Incorrectly Allocated the Price Category to that ICP; and
 - (C) the Switch Event Date for that ICP recorded for the Trader, up to the date on which the Distributor allocates a Corrected Price Category to that ICP; less
 - (ii) the charges that would have applied if the Corrected Price Category had been allocated to that ICP during the period referred to in subparagraph (i), provided that the maximum period for which credit will be payable under this clause 8.7 is 15 months, unless otherwise agreed.
- 8.8 **Limitations on credits for Price Category corrections:** Clause 8.7(b) does not apply in respect of an ICP if:
- (a) clause 8.9 applies to the ICP; or
 - (b) within 20 Working Days of the Switch Event Date recorded for the Trader, the Trader has not provided the Distributor with correct or complete information about the ICP or the Customer necessary to determine Price Category eligibility (provided that information was not already known by the Distributor);
 - (c) the Price Category correction was necessary because the Trader provided the Distributor with incorrect or incomplete information in relation to the ICP or the Customer or any other factors in respect of that ICP that were relevant to the allocation of a Price Category; or
 - (d) the initial Price Category was allocated on the basis of incorrect information provided by the Customer or the Customer's representative.
- 8.9 **Distributor's right to change Price Category if it considers Price Category has been Incorrectly Allocated:** If at any time the Distributor reasonably considers that a Price Category has been Incorrectly Allocated to an ICP:
- (a) the Distributor must notify the Trader accordingly, including notification of the reasons why it considers that the Price Category has been Incorrectly Allocated, and identify the Price Category or Price Categories it considers the ICP is eligible for;
 - (b) unless the Trader is able to provide evidence to the Distributor's reasonable satisfaction within 10 Working Days of the Distributor's notice that the current Price Category has not been Incorrectly Allocated, the Distributor may:
 - (i) allocate the Price Category that it considers appropriate to that ICP (acting reasonably and consistently with clause 8.1), and
 - (ii) commence charging the Trader for Distribution Services in accordance with that Price Category after a further 40 Working Days; and

- (c) the Distributor must provide to the Trader information relevant to its decision.
- 8.10 **Application of clause 8.9:** Clause 8.9 does not apply if the Trader has already provided notice to the Distributor under clause 8.6 that the relevant Price Category has been Incorrectly Allocated.
- 8.11 **Commencement of charges:** The Trader is liable to pay charges in respect of an ICP from:
- (a) the day the ICP is Energised or Re-energised; or
 - (b) if the Trader is assuming responsibility for the ICP, the later of the Switch Event Date or the date that the ICP is Energised.
- 8.12 **Cessation of charges:** The Trader is not liable to pay charges in respect of an ICP:
- (a) from the day on which an ICP is De-energised (except as a result of a Temporary Disconnection); or
 - (b) from the Switch Event Date, if another trader takes responsibility for the ICP; or
 - (c) from the day which is 2 Working Days after the Distributor receives a notification from the Trader that the Distributor is responsible for completing a Vacant Site Disconnection in respect of the ICP in accordance with Schedule 6.

9. BILLING INFORMATION AND PAYMENT

- 9.1 **Calculating Tax Invoices for Distribution Service charges:** The Trader must provide information to enable the Distributor to calculate Distribution Services charges and prepare Tax Invoices, in accordance with Schedule 2.
- 9.2 **Late, incomplete, or incorrect information:** If the Trader does not provide information to the Distributor in accordance with Schedule 2 by the 5th Working Day after the last day of the month to which the Tax Invoice relates, or any information provided by the Trader is incomplete or materially incorrect, the Distributor may estimate, in accordance with Good Electricity Industry Practice, the Trader's Tax Invoice for Distribution Services.
- 9.3 **Issuing of Tax Invoices:** The Distributor must issue Tax Invoices for Distribution Services as follows:
- (a) the Distributor must invoice the Trader within 10 Working Days after the last day of the month to which the Tax Invoice relates;
 - (b) a Tax Invoice may either be:
 - (i) calculated based on the information provided by the Trader in accordance with Schedule 2 (an "**Actual Invoice**"); or
 - (ii) estimated in accordance with Good Electricity Industry Practice, including where clause 9.2 applies (a "**Pro forma Invoice**");
 - (c) at the same time as it provides an Actual Invoice (under paragraph (a), (d), or (e)), the Distributor must provide to the Trader, in accordance with the relevant EIEP, sufficiently detailed information to enable the Trader to verify the accuracy of the Tax Invoice;
 - (d) if late, incomplete, or incorrect information is provided and the Tax Invoice is a Pro forma Invoice on the basis of that information, the Distributor must issue an Actual Invoice that replaces the Pro forma Invoice in the month after it receives additional or revised consumption information, at the same time as the Distributor issues a Tax Invoice to the Trader for its Distribution Services charges for that month;
 - (e) if the Tax Invoice is a Pro forma Invoice and paragraph (d) does not apply, the Distributor must, by no later than the same time as the Distributor issues a Tax Invoice under paragraph (a) to the Trader for its Distribution Services charges for the following month, issue an Actual Invoice that replaces the Pro forma Invoice as well as a Credit Note in relation to the Pro forma Invoice;
 - (f) if the information received by the Distributor in accordance with Schedule 2 includes

revised reconciliation information or additional consumption information, the Distributor must provide a separate Credit Note or Debit Note to the Trader in respect of the revised consumption information ("**Revision Invoice**"), and a Use of Money Adjustment applying from the due date of the original invoice to the due date of the Revision Invoice (unless the parties agree otherwise);

- (g) if a Revision Invoice is required, the Distributor must issue the Revision Invoice in the month after the Distributor receives the revised reconciliation information or additional consumption information, at the same time as the Distributor issues a Tax Invoice to the Trader for its Distribution Services charges for that month; and
- (h) at the same time it provides a Revision Invoice, the Distributor must provide to the Trader, in accordance with the relevant EIEP, sufficiently detailed information to enable the Trader to verify the accuracy of the Revision Invoice.

9.4 Due date for payment: The settlement date for each Tax Invoice issued by the Distributor must be the 20th day of the month in which the Tax Invoice is received, or if the 20th day of the month is not a Working Day, the first Working Day after the 20th day. However, if the Distributor fails to send a Tax Invoice to the Trader within 10 Working Days after the last day of the month to which the Tax Invoice relates, the due date for payment is extended by 1 Working Day for each Working Day that the Tax Invoice is late.

9.5 Other invoices:

- (a) The Distributor may issue the Trader with:
 - (i) a Tax Invoice for payment for any other sums due to the Distributor under this Agreement; and
 - (ii) a Credit Note for payment of Service Guarantee Payments and any other sums due to the Trader under this Agreement.
- (b) The Trader may issue the Distributor with a Tax Invoice for Service Guarantee Payments and any other sums due to the Trader under this Agreement.
- (c) Any Tax Invoice or Credit Note issued under clause 9.5(a) or (b) must be issued within 10 Working Days of the end of the month to which the Tax Invoice or Credit Note relates.

The settlement date for any Tax Invoice issued under clause 9.5(a) or (b) is the 20th day of the month in which the Tax Invoice is received or, if the 20th day of the month is not a Working Day, the first Working Day after the 20th day. If the Distributor or the Trader (as the case may be) fails to send a Tax Invoice to the Trader or the Distributor (as the case may be) within 10 Working Days after the last day of the month to which the Tax Invoice relates, the due date for payment is extended by 1 Working Day for each Working Day that the Tax Invoice is late.

9.6 Interest on late payment: Subject to clause 9.7, the Trader or the Distributor (as the case may be) must pay any Tax Invoice issued under this clause 9. If any part of a Tax Invoice that is properly due in accordance with this Agreement is not paid by the due date, Default Interest may be charged on the outstanding amount for the period that the Tax Invoice remains unpaid.

9.7 Disputed invoices: If the Trader or the Distributor disputes a Tax Invoice (or a Revision Invoice, as applicable) issued under this clause 9, the party disputing the invoice ("**Disputing Party**") must notify the other party ("**Non-disputing Party**") in writing and provide details as to the reasons why the Disputing Party disputes that invoice within 18 months of the date of the first Tax Invoice issued in respect of the Distribution Services charges the subject of the disputed Tax Invoice ("**Invoice Dispute**"). On receiving an Invoice Dispute notice, the Non-disputing Party must:

- (a) if the Non-disputing Party agrees with the matters set out in the Invoice Dispute notice and:

- (i) the Disputing Party has not paid the disputed Tax Invoice, promptly issue a Credit Note for the disputed amount, and any remaining amount owed must be paid by the Disputing Party within 6 Working Days of receipt of the Credit Note, but need not pay prior to the time set out in clause 9.4 or 9.5; or
- (ii) the Disputing Party has paid the disputed invoice, calculate the amount that the Disputing Party has over paid and promptly issue a Credit Note to the Disputing Party for the amount over paid, which must include a Use of Money Adjustment. Any amount owed must be paid by the Non-disputing Party within 6 Working Days of issuing the Credit Note. A Use of Money Adjustment must apply for the period commencing on the date the original Tax Invoice was paid and ending when re-payment is made, but the amount need not be settled prior to the time set out in clauses 9.4 or 9.5; or
- (b) if the Non-disputing Party disagrees with the matters set out in the Invoice Dispute notice, either party may raise a Dispute in accordance with clause 23 and if the Disputing Party has not paid the disputed Tax Invoice, it must pay the undisputed amount of the disputed Tax Invoice issued in accordance with clauses 9.4 or 9.5; and
- (c) on the resolution of a Dispute under clause 23, any amount owed must be paid by the relevant party within 6 Working Days. Default Interest is payable for the period commencing on the date the disputed amount would have been due for payment under this clause 9, and ending when payment is made. To the extent the Tax Invoice is held not to be payable, the Non-disputing Party must issue a Credit Note to the Disputing Party.

9.8 **Incorrect invoices:** If it is found that a party has been overcharged or undercharged, and the party has paid the Tax Invoice (or a Revision Invoice, as applicable) containing the overcharge or undercharge, within 20 Working Days after the error has been discovered and the amount has been agreed between the parties, the party that has been overpaid must refund to the other party the amount of any such overcharge or the party that has underpaid must pay to the other party the amount of any such undercharge, in both cases together with a Use of Money Adjustment on the overcharged or undercharged amount applying for the period commencing on the date of the original payment and ending when re-payment is made, provided that neither party has the right to receive a compensating payment in respect of an overcharge or undercharge if more than 18 months has elapsed since the date of the Tax Invoice containing the overcharge or undercharge.

9.9 **No set-off:** Both parties must make the payments required to be made to the other under this Agreement in full without deduction of any nature whether by way of set-off, counterclaim or otherwise except as otherwise set out in clause 9.7 or as may be required by law.

9.10 **Reduction of charges due to electricity supply interruption:** If, as a consequence of a fault on the Network, there is a continuous interruption affecting a Customer's Point of Connection for 24 hours or longer, the Distributor must:

- (a) advise the Trader of the ICPs that are so affected either as part of the invoicing information for the next monthly billing cycle or separately prior to the next month's billing cycle (for example by updating the registry status to "Inactive", or by sending a separate report); and
- (b) despite clauses 21 and 24, in the next monthly billing cycle, reduce the Distribution Services charges paid by the Trader in respect of the ICP or ICPs for that Customer during which supply of electricity was interrupted for longer than 24 continuous hours, by setting the billed quantities for each day during which the interruption continues and the day the interruption ends, but not the first day during which the interruption began, to zero.

- 9.11 **Reduction of charges due to state of emergency:** If, as a consequence of a declared state of emergency under the Civil Defence Emergency Management Act 2002, the Trader on the Customer's behalf requests disconnection, and the ICP or ICPs cannot be accessed to be disconnected, the Distributor must, in the next monthly billing cycle, reduce the Distribution Services charges paid by the Trader in respect of the ICP or ICPs for that Customer for the number of complete days from the date disconnection was requested, by setting the billed quantities for those days to zero.

10. PRUDENTIAL REQUIREMENTS

- 10.1 **Distributor may require Trader to comply with prudential requirements:** The Distributor may, by giving notice to the Trader, require the Trader to comply with prudential requirements, in which case the Trader must, whether the notice is received before or after the commencement of this Agreement, comply with prudential requirements as follows:
- (a) if the Trader is not trading on the Network, the Trader must comply with prudential requirements before the Trader starts trading on the Network; and
 - (b) if the Trader is trading on the Network, the Trader must comply with prudential requirements within 10 Working Days after receipt of the Distributor's notice.
- 10.2 **Trader elects prudential requirements:** If the Distributor requires the Trader to comply with prudential requirements in accordance with clause 10.1, the Trader must comply with either of the following prudential requirements:
- (a) the Trader must maintain an acceptable credit rating at all times; or
 - (b) the Trader must provide and maintain at all times acceptable security by, at the Trader's election:
 - (i) providing the Distributor with a cash deposit of the value specified in clause 10.6 ("**Cash Deposit**"), which the Distributor must hold in a trust account that the Distributor must establish and operate in accordance with clause 10.26;
 - (ii) arranging for a third party with an acceptable credit rating to provide security in a form acceptable to the Distributor, of the value specified in clause 10.6; or
 - (iii) providing a combination of the securities listed in subparagraphs (i) and (ii) to the value specified in clause 10.6.
- 10.3 **Acceptable credit rating:** For the purposes of clause 10.2, an acceptable credit rating means that the Trader or the third party (as the case may be):
- (a) carries a long term credit rating of at least:
 - (i) Baa3 (Moody's Investor Services Inc.);
 - (ii) BBB- (Standard & Poor's Rating Group);
 - (iii) B- (AM Best); or
 - (iv) BBB- (Fitch Ratings); and
 - (b) if the Trader or the third party (as the case may be) carries a credit rating at the minimum level required by paragraph (a), is not subject to a negative watch or any similar arrangement by the agency that gave it the credit rating.
- 10.4 **Change in prudential requirements complied with:** The Trader may elect to change the way in which it complies with prudential requirements by notifying the Distributor of the change at least 2 Working Days before the change occurring, in which case the parties must comply with clause 10.18. The change will come into effect on the intended date, provided that the Trader has complied with all its obligations under this Agreement, and on confirmation, satisfactory to the Distributor, that an alternative suitable form of security has been provided that satisfies the requirements of clause 10.2.

- 10.5 **Evidence of acceptable credit rating:** The Trader or third party (as the case may be) must provide such evidence that it has maintained or is maintaining an acceptable credit rating as the Distributor or its agent may from time to time reasonably require.
- 10.6 **Value of security:** The value of security required for the purposes of this clause 10 is the Distributor's reasonable estimate of the Distribution Services charges that the Trader will be required to pay to the Distributor in respect of any period of not more than 2 weeks, notified in writing by the Distributor to the Trader. If additional security is required in accordance with clause 10.7 ("**Additional Security**"), the Distributor's notice provided under clause 10.1 must state the amount of the Additional Security.
- 10.7 **Distributor may require Additional Security:** The Distributor may, by notice to the Trader, require the Trader to provide Additional Security. The amount of any Additional Security required must be such that the total value of all security required to be provided by the Trader under this Agreement is not more than the Distributor's reasonable estimate of the charges that the Trader will be required to pay to the Distributor under this Agreement in respect of any 2 month period.
- 10.8 **If Additional Security required:** If the Distributor requires the Trader to provide Additional Security:
- (a) the Trader may elect the type of security that it provides in accordance with clause 10.2(b); and
 - (b) the parties must comply with clauses 10.16 and 10.18.
- 10.9 **Additional Security requirements:** The following provisions apply in respect of any Additional Security provided:
- (a) if the Additional Security is in the form of a Cash Deposit, the Distributor must pay a charge to the Trader for each day that the Distributor holds the Additional Security at a per annum rate that is calculated as follows:

the Bank Bill Yield Rate for that day, plus 15 percentage points

(so that, by way of example, if the Bank Bill Yield Rate for the relevant day is 3%, the charge will be 18%)
 - (b) the parties agree that the charge calculated in accordance with paragraph (a) is a genuine and reasonable pre-estimate of the cost to the Trader of providing the Additional Security in the form of a Cash Deposit;
 - (c) the Additional Security must be held as if it were part of the Cash Deposit under this Agreement;
 - (d) if the Additional Security is in the form of security from a third party, the Distributor must pay a charge to the Trader for each day that the Distributor holds the Additional Security at a per annum rate of 3% on the amount of Additional Security held on that day;
 - (e) any money required to be paid by the Distributor to the Trader in accordance with this clause 10.9 must be paid by the Distributor to the Trader on a quarterly basis; and
 - (f) if the Trader provides an amount that is greater than the amount of Additional Security required by the Distributor as Additional Security, the charges set out in paragraph (a) will not be payable by the Distributor in relation to the amount provided in excess of the Additional Security required by the Distributor.
- 10.10 **Estimating the value of security if the Trader is a new trader:** If the Trader has not previously entered into a contract with the Distributor for access to the Network, the Distributor must estimate the value of security required under clause 10.6 for the first 6 months of this Agreement, subject to any reassessment of the value under this Agreement, having regard to:

- (a) the Distributor's historical records of the Distribution Service charges in respect of the relevant ICPs; or
 - (b) in the absence of such records, a bona fide business plan prepared by the Trader in good faith is necessary for the Distributor to determine the value of security that it requires from the Trader.
- 10.11 **Review of the value of security:** The Distributor may review, or the Trader may require the Distributor to review, the value of security required to be provided by the Trader at any time.
- 10.12 **Trader to notify Distributor of changes affecting security:** Subject to clause 10.14, the Trader must immediately notify the Distributor if any of the following occurs:
- (a) the Trader no longer carries an acceptable credit rating; or
 - (b) the Trader has complied with prudential requirements by arranging for a third party to provide security in accordance with clause 10.2(b), and the Trader learns that the third party no longer carries an acceptable credit rating; or
 - (c) the Trader has reasonable cause to believe that its financial position is likely to be materially adversely impaired such that its ability to pay for Distribution Services will be affected.
- 10.13 **Confidential Information:** Any information provided by the Trader to the Distributor under clause 10.12 will be Confidential Information.
- 10.14 **Public issuers and listed companies:** For the purpose of clause 10.12, if the Trader (or its ultimate parent company) is a "listed issuer" for the purposes of the Financial Markets Conduct Act 2013, the Trader may require the Distributor to enter into a confidentiality and/or security trading prohibition agreement on terms reasonably satisfactory to the Trader before giving notice and disclosing information under clause 10.13, if and for so long as the Trader considers such information to be "inside information" as defined in that Act.
- 10.15 **Distributor may make enquiries:** If the Distributor believes that the Trader should have given notice under clause 10.12 and the Distributor has not received any such notice, the Distributor may enquire of the Trader as to whether it should have given such notice. Any such enquiry must be in writing and be addressed to the Chief Executive of the Trader. If notice should have been given, the Trader must give notice immediately, or if no notice is required, the Trader must respond to the Distributor in writing within 2 Working Days of receipt of the Distributor's notice under this clause 10.15. Correspondence sent or received by either party under this clause is Confidential Information.
- 10.16 **Change to value of security:** If:
- (a) the Distributor requires that the Trader provide Additional Security in accordance with clause 10.7; or
 - (b) following a review of the Trader's security in accordance with clause 10.11; or
 - (c) on receipt of information contemplated by clause 10.12 or 10.15; or
 - (d) as the result of a failure by the Trader to respond to a request made under clause 10.15 within the timeframe set out in clause 10.15;
- the Distributor or the Trader considers that the value of security should be increased or decreased, the Distributor must, acting reasonably, make a decision on what the value of security should be, and immediately notify the Trader of its decision and the grounds for that decision and must include in the notification details of the part of the security that constitutes Additional Security. To avoid doubt, failure by a Trader to respond to a request made under clause 10.15 within the required timeframe constitutes reasonable grounds for a Distributor to change the value of security required to be provided by the Trader.

- 10.17 Failure to maintain acceptable credit rating:** If:
- (a) on receipt of information contemplated by clauses 10.12 or 10.15; or
 - (b) as the result of a failure by the Trader to respond to a request made under clause 10.15 within the timeframe set out in clause 10.15, the Distributor considers, acting reasonably, that the Trader is no longer able to maintain an acceptable credit rating in accordance with clause 10.2(a), and the Distributor still requires the Trader to comply with prudential requirements, the Distributor must notify the Trader of the value of acceptable security required in accordance with clause 10.2(b).
- 10.18 Distributor or Trader to effect changes in value or type of security:** The Distributor or the Trader, as appropriate, must take all actions necessary to satisfy the requirement for the increase or decrease in the value of security or change to the type of security, within 5 Working Days of notification under clause 10.4, 10.16, or 10.17. Refunds of Cash Deposits and reductions of the value of third party security required must be made in accordance with clauses 10.19 or 10.21.
- 10.19 Refund of Cash Deposit:** If the Distributor refunds all or part of a Cash Deposit, it must refund all or part of the Cash Deposit into a bank account nominated by the Trader on the Working Day following the day on which the Distributor decided to, or is required to, refund the Cash Deposit.
- 10.20 Cash Deposit on Insolvency Event:** If an Insolvency Event occurs in relation to the Trader:
- (a) the Trader will not be entitled to a return of the Cash Deposit, other than as set out in clause 10.26(f); and
 - (b) if the Trader fails or has failed to pay an amount owing under this Agreement, full beneficial ownership of that amount (plus Default Interest) of the Cash Deposit (or if the Cash Deposit is less than the amount owing, the full amount of the Cash Deposit) will automatically transfer solely to the Distributor and the Distributor will be entitled to draw down that amount (plus Default Interest), on 2 Working Days' notice to the Trader.
- 10.21 Reduction of third party security:** If the Distributor decreases the value of third party security required in accordance with this Agreement, the Trader may arrange for the issuing of new third party security for the lesser value, in satisfaction of clause 10.2(b)(ii), which will replace the earlier third party security.
- 10.22 When Distributor may make a call on security:** The Distributor may make a call on security in accordance with clause 10.23 if:
- (a) the Trader has provided security for the purpose of clause 10.2(b); and
 - (b) the Trader fails to pay an amount due under this Agreement; and
 - (c) the amount is not subject to a genuine dispute.
- 10.23 Calls on security:** If this clause applies in accordance with clause 10.22, the Distributor may, on 2 Working Days' notice to the Trader (or immediately in the case of deemed Cash Deposit under clause 10.25), call on the security as follows:
- (a) if the Trader provided a Cash Deposit (which includes a deemed Cash Deposit), full beneficial ownership of the amount owing (plus Default Interest) of the Cash Deposit will automatically transfer solely to the Distributor effective from the expiry of the 2 Working Day notice period or immediately (as applicable) and the Distributor may draw down and apply the amount owed (including Default Interest) from the Cash Deposit;
 - (b) if the Trader arranged for a third party to provide security, the Distributor may call on the provider of a third party security to pay the amount owed in

accordance with the security; and

- (c) in either case, the Distributor must immediately notify the Trader that it has called on the security.

10.24 **Requirement to maintain security:** To avoid doubt, if the Distributor draws down some or all of a Cash Deposit held by the Distributor under this Agreement, or calls on the provider of a third party security, the Trader must within 5 Working Days take all steps necessary to ensure that the Trader maintains acceptable security of the value specified in clause 10.6 and the value of any Additional Security required by clause 10.7 (as such may be reviewed by the Distributor in accordance with clause 10.11), as required by clause 10.2(b).

10.25 **Third party security may be released:** If the provider of third party security makes a payment to the Distributor in order to be released from its obligations under that security, such payment will be deemed to constitute a Cash Deposit provided by the Trader in substitution for the third party security and must be dealt with in accordance with clause 10.26.

10.26 **Trust Account Rules:** If the Distributor receives a Cash Deposit:

- (a) the Cash Deposit must be held in a trust account in the name of the Trader, to be applied or distributed only on the terms of this Agreement, or as otherwise agreed by the parties;
- (b) the Distributor must establish a trust account with a New Zealand registered bank ("**the Bank**") for the purpose of holding the Cash Deposit ("**Trust Account**");
- (c) the Distributor must obtain acknowledgement from the Bank that the Cash Deposit is held on trust in the Trust Account and that the Bank has no right of set-off or right of combination in relation to the Cash Deposit;
- (d) the Trader must inform the Distributor of the bank(s) that the Trader uses for its banking purposes and if the Trader changes banks;
- (e) the Trust Account must bear interest at the best on call rate reasonably available from time to time from the Bank. The Distributor must pay the Trader the interest earned on the Cash Deposit (except for the amount of the Cash Deposit that is Additional Security, in respect of which a charge should be paid in accordance with clause 10.9) on a quarterly basis net of account fees and any amounts required to be withheld by law, unless the parties agree otherwise;
- (f) if this Agreement is terminated, the Distributor must refund any Cash Deposit (less any amount owed to the Distributor plus any interest not yet paid to the Trader) to the Trader in accordance with clause 10.19, provided that the Trader:
 - (i) is not otherwise in default of this Agreement;
 - (ii) has ceased to be bound by this Agreement; and
 - (iii) has discharged all obligations under this Agreement to the Distributor, including payment of all outstanding amounts under this Agreement; and
- (g) the Distributor must provide the Trader with an annual report in respect of the operation of the Trust Account if requested by the Trader.

10.27 **Release of third party security:** If this Agreement is terminated, the Distributor must release any third party security, provided that the Trader has met all of the requirements set out in clause 10.26(f).

PART III – OPERATIONAL REQUIREMENTS

11. ACCESS TO THE CUSTOMER'S PREMISES

11.1 **Rights of entry onto Customer's Premises:** The Trader must, subject to clause 29.1, include in each of its Customer Agreements a requirement that the Customer provide the

Distributor and its agents with safe and unobstructed access onto the Customer's Premises for all of the following purposes:

- (a) to inspect, maintain, operate, or upgrade (provided that the upgrade does not have any material adverse effect on the relevant Customer or Customer's Premises) the Distributor's Equipment;
- (b) to install, read, maintain, or upgrade (provided that the upgrade does not have any material adverse effect on the relevant Customer or Customer's Premises) Metering Equipment that is owned by the Distributor;
- (c) to Energise, Re-energise, disconnect, and reconnect the Customer in accordance with this Agreement;
- (d) to access the Trader's Equipment to verify metering information, including, in the event of termination of this Agreement, to determine any charges outstanding at the time of termination;
- (e) for the safety of persons or property;
- (f) to ensure that the Customer fulfils its obligations in accordance with clause 12.7;
- (g) to enable the Distributor to gain access to and remove any of the Distributor's Equipment following the termination of the Customer Agreement for the period ending 6 months after the date that termination takes effect; and
- (h) to comply with the law in relation to the provision of Distribution Services.

11.2 **Exercise of access rights:** In exercising its access rights under clause 11.1, the Distributor must, except to the extent that the Distributor has any other binding agreement setting out its access rights directly with the Customer:

- (a) comply with sections 23A to 23D, 57, and 159 of the Electricity Act 1992 as though these sections relate to the Distributor's access rights as contemplated under clause 11.1, provided that the Distributor must give written notice to a Customer if the Distributor intends to access the Customer's Premises for any reason (except if the Distributor requires access to carry out a routine inspection or operation of the Distributor's Equipment, or in an emergency situation);
- (b) ensure that it has appropriate procedures in place for the secure storage, use, and return of any key to and any security information about the Customer's Premises;
- (c) cause as little disturbance or inconvenience as practicable to the Trader and the Customer (including minimising any direct impact on the Customer's property) and ensure that its personnel:
 - (i) behave in a courteous, considerate, and professional manner at all times while on the Customer's Premises;

- 23.9 **Choice of arbitrator:** The sole arbitrator must be appointed by the parties. If the parties cannot agree on the identity of the arbitrator within 10 Working Days of the referral in clause 23.7, the arbitrator will be appointed by the President of the New Zealand Law Society.
- 23.10 **No connection to previous mediator or mediation:** If the Dispute has been referred to mediation, the mediator may not be called by either party as a witness, and no reference may be made to any determination issued by the mediator in respect of the matter in Dispute during any subsequent arbitration or legal action on the matter in Dispute.
- 23.11 **Urgent relief:** Despite any other provision of this Agreement, each party may take steps to seek urgent injunctive or equitable relief before an appropriate court.

- 24.2 **Direct damage:** Except in respect of liability under clauses 20, 24.9, 25, and 27, each party (and its officers, employees, and agents) will be liable under or in connection with this Agreement (whether in contract, tort (including negligence), or otherwise) to the other party for only direct damage to the physical property of any person ("**Direct Damage**") that results from a breach of this Agreement, negligence, or failure to exercise Good Electricity Industry Practice.
- 24.3 **Consequential loss excluded:** Except in respect of liability under clauses 20, 24.9, 25, and 27, neither party (nor any of their respective officers, employees, or agents) will be liable under or in connection with this Agreement (whether in contract, tort (including negligence), or otherwise) to the other party for:

- 24.4 **No liability in tort, contract etc:** Except as expressly provided in clauses 20, 24, 25, and 27, the Distributor's liability to the Trader and the Trader's liability to the Distributor, whether in tort (including negligence), contract, breach of statutory duty, equity, or otherwise arising from the relationship between them and of any nature whatsoever relating to the subject matter of this Agreement is excluded to the fullest extent permitted by law.
- 24.5 **Distributor not liable:** Except as provided in clause 25, the Distributor will not be liable for:
- (a) any failure to convey electricity to the extent that:
 - (i) such failure arises from any act or omission of any Customer or other person excluding the Distributor and its officers, employees, or agents;
 - (ii) such failure arises from a request by the System Operator or any action taken as a result of a nationally or regionally coordinated response to a shortage of electricity that results in either:
 - (A) a failure to convey or reduction of injection or supply of electricity into the Network; or
 - (B) an interruption in the conveyance of electricity in the Network;
 - (iii) such failure arises from any defect or abnormal conditions in or about any Customer's Premises;
 - (iv) the Distributor was taking any action in accordance with this Agreement including clause 4.4;
 - (v) such failure arises from any act or omission of the System Operator, a Generator, or a Grid Owner, unless and to the extent that the Distributor has obtained a service guarantee from the System Operator or Grid Owner and the System Operator or Grid Owner has paid the Distributor under the relevant service guarantee, in which case the Distributor will be liable to the Trader only to the extent of the Trader's proportionate share of such payment having regard to all other traders and all customers affected by the relevant event, as

- determined by the Distributor (acting reasonably); or
- (vi) such failure arises because the Distributor is prevented from making necessary repairs (for example by police at an accident scene), except to the extent that the failure is caused or contributed to by the Distributor not acting in accordance with this Agreement; or
- (b) any failure to perform any obligation under this Agreement caused by the Trader's failure to comply with this Agreement, except to the extent that the failure is caused or contributed to by the Distributor not acting in accordance with this Agreement; or
- (c) any momentary fluctuations in the voltage or frequency of electricity conveyed; or
- (d) nonconformity with regulated harmonic voltage and current levels where this nonconformity is because of the use of Fittings and Appliances by someone other than the Distributor.

24.6 Trader not liable: The Trader will not be liable for:

- (a) any failure to perform any obligation under this Agreement caused by the Distributor's failure to comply with this Agreement; or
 - (b) any failure to perform any obligation under this Agreement arising from any defect or abnormal conditions in the Network,
- except to the extent that the failure is caused or contributed to by the Trader not acting in accordance with this Agreement.

24.7 Limitation of liability: Subject to clauses 24.1 and 24.8, but despite any other provision of this Agreement, the maximum total liability of each party under or in connection with this Agreement (whether in contract, tort (including negligence), or otherwise) for any single event or series of connected events will not in any circumstances exceed the lesser of \$10,000 for each ICP on the Network at which the Trader traded electricity on the day of the event, or \$2,000,000.

24.8 Exclusion: Clause 24.7:

 - (i) the loss was caused by a Customer failing to comply with the Distributor's Network Connection Standards;
 - (ii) the Trader is required by this Agreement to include in each of its Customer Agreements a provision requiring the Customer to comply with those Network Connection Standards; and
 - (iii) the Customer Agreement between the Trader and the Customer did not include such a provision.

24.9 Consumer Guarantees Act: The following provisions apply:

- (a) subject to clause 29.1, the Trader must, to the fullest extent permitted by law and including if the Customer is acquiring or holds itself out as acquiring electricity for the purpose of a business, exclude from each of its Customer Agreements (which includes a contract between the Trader and a purchaser of electricity that is not an end user) all warranties, guarantees, or obligations:
 - (i) imposed on the Distributor by the Consumer Guarantees Act 1993 or any other law concerning the services to be provided by the Distributor under this Agreement ("Distributor Warranties"); and
 - (ii) imposed on the Trader by the Consumer Guarantees Act 1993 or any other law concerning the supply of electricity by the Trader under the Customer Agreement ("Trader Warranties");
- (b) if the Customer on-supplies electricity to an end-user the Trader must, as a condition of any Customer Agreement, require the Customer to include provisions in all

agreements between the Customer and an end-user, excluding all Distributor Warranties and Trader Warranties to the fullest extent permitted by law, including if the end-user is acquiring, or holds itself as acquiring, electricity for the purposes of a business;

- (c) to avoid doubt, nothing in this clause 24.9 affects the rights of any Customer under the Consumer Guarantees Act 1993 that cannot be excluded by law, nor does it preclude the Trader from offering in its Customer Agreements its own warranties, guarantees, or obligations pertaining to distribution services; and
- (d) for the purposes of paragraph (a), the obligation to exclude warranties, guarantees, or obligations if the Customer is acquiring or holds itself out as acquiring electricity for the purpose of a business only applies if such exclusion is permissible under section 43 of the Consumer Guarantees Act 1993.

24.10 Distributor liabilities and Customer Agreements: The Trader must, subject to clause 29.1, include in each of its Customer Agreements clear and unambiguous clauses to the effect that:

- (a) the Customer must indemnify the Distributor against any direct loss or damage caused or contributed to by the fraud of, dishonesty of, or wilful breach of the Customer Agreement by the Customer or any of its officers, employees, agents, or invitees arising out of, or in connection with, the Distribution Services provided under this Agreement; and
- (b) to the extent permitted by law, the Distributor will have no liability to the Customer in contract, tort (including negligence), or otherwise in respect of the supply of electricity to the Customer under the Customer Agreement.

24.11 Benefits to extend: Each party agrees that its obligations under this clause 24 and clauses 25 to 28 (and clause 29.3 in respect of the Trader) constitute promises conferring benefits on each party's officers, employees, and agents that are intended to create, in respect of the benefit, an obligation enforceable by those officers, employees, and agents and accordingly, the provisions of Part 2 of the Contract and Commercial Law Act 2017 apply to its promises under this clause 24. The clauses referred to in this clause may be varied by agreement between the parties without the consent of the beneficiaries described in this clause.

25. INDEMNITY

25.1 Distributor indemnity: Despite anything else in this Agreement, the Trader is entitled to be indemnified by the Distributor as set out in section 46A of the Consumer Guarantees Act 1993.

26. CLAIMS UNDER THE DISTRIBUTOR'S INDEMNITY

26.1 Claim against Trader: If a Customer makes a claim against the Trader in relation to which the Trader seeks (at the time of the claim or later) to be indemnified by the Distributor under section 46A of the Consumer Guarantees Act 1993 (a "Claim"), the Trader must:

- (a) give written notice of the Claim to the Distributor as soon as practicable after the Trader has become aware of the Claim and any facts or circumstances indicating that the underlying failure may be related to an event, circumstance, or condition associated with the Network, specifying the nature of the Claim in reasonable detail; and
- (b) make available to the Distributor all information that the Trader holds in relation to the Claim that is reasonably required by the Distributor.

- 26.2 Claim against Trader in relation to breach of service standards by the Distributor:** The Distributor and the Trader acknowledge that a breach of the Service Standards in Schedule 1 of this Agreement by the Distributor may result in a Customer making a claim against the Trader for an alleged breach of the acceptable quality guarantee in section 7A of the Consumer Guarantees Act 1993 (a "Claim"). If the Trader reasonably believes that a Claim may arise, the Trader agrees not to make any determination, admission, settlement or compromise in respect of the Claim without first consulting with the Distributor in respect of the Claim and complying with the processes set out in this Schedule.
- 26.3** If the Trader becomes aware of or suspects a breach of the Service Standards by the Distributor which may give rise to a Claim, the Trader must give the Distributor written notice of the reasons why it suspects that there has been a breach and all information accessible by the Trader in relation to the matter that is reasonably requested by the Distributor.
- 26.4** If the Distributor is notified of a potential Claim under clause 26.2, the Trader is deemed to have authorised the Distributor to:
- (a) communicate directly with the relevant Customer and the Dispute Resolution Scheme in relation to the Claim; and
 - (b) assume the management and defence of the Claim, provided that the Distributor must advise the Trader as soon as reasonably practicable, and in any event within 15 working days, after being notified of the Claim if it intends to assume the management and defence of the Claim.
- 26.5** If the Distributor elects to assume the management and defence of the Claim under clause 26.4(b):
- (a) the Distributor may determine the conduct of the Claim;
 - (b) the Trader may advise the relevant Customer and the Dispute Resolution Scheme that the Distributor is responsible for the conduct of the Claim;
 - (c) the Distributor must ensure that the Trader is fully informed on a timely basis of any developments in relation to the Claim; and
 - (d) the Distributor must ensure that the Trader is consulted in a timely manner before the Distributor takes any significant steps in relation to the Claim, so that the reputation of the Trader is not unfairly harmed.
- 26.6** If, in respect of any Claim in respect of which the Distributor has assumed the management and defence, the Distributor intends to assert that the Distributor's indemnity pursuant to section 46A of the Consumer Guarantees Act 1993 does not apply, the Distributor must promptly, and no later than within 15 working days, notify the Trader accordingly. In that event, the Trader may resume the conduct of the management and defence of the Claim.
- 26.7** If the Distributor elects not to assume the management and defence of the Claim under clause 26.4(b), or the Trader resumes management and defence of the Claim under clause 26.5, the Trader will ensure that:
- (a) the Distributor is kept fully informed on a timely basis of any developments in relation to the Claim; and
 - (b) the Distributor is consulted in a timely manner before the Trader takes any significant steps in relation to the Claim, so that the reputation of the Distributor is not unfairly harmed.
- 26.8** The following payment arrangements apply, subject to the parties' compliance with clauses 26.2 to 26.7:
- (a) The Trader may require the Distributor to pay the Trader the reasonable out of pocket costs incurred by the Trader in managing and defending or settling the Claim, at not less than monthly intervals upon presentation of the documentation supporting the claim for payment, as and when those costs are incurred by the Trader.

- (b) The Distributor shall promptly pay the Trader any amounts due as a remedy cost under section 46A of the Consumer Guarantees Act 1993, following:
 - (i) the Distributor's liability being agreed by the Distributor with the Trader; or
 - (ii) the Distributor's liability being determined by the Dispute Resolution Scheme; or
 - (iii) the Distributor's liability otherwise being finally determined by a court of competent jurisdiction.
- (c) The Trader must promptly repay amounts paid by the Distributor to the Trader (including under clause 26.8(a)) in respect of any liability to or on behalf of the Trader under the indemnity in section 46A of the Consumer Guarantees Act 1993 to the extent that:
 - (i) the Claim is or becomes a claim for which the Trader is not entitled to be compensated under that indemnity; or
 - (ii) a court of competent jurisdiction determines that the Trader is not entitled to be indemnified by the Distributor for the Claim; or
 - (iii) the Trader receives payment under a contract of insurance in respect of the Claim, or the insurer pays, discharges or satisfies the Claim directly and the Trader is not obliged to refund the payment to the insurer as a result of the payment by the Distributor under the indemnity; or
 - (iv) the Trader receives payment from a person other than the Distributor in respect of the Claim, or that person pays, discharges or satisfies the Claim directly; or
 - (v) the Trader did not perform an obligation referred to in clauses 26.2 to this clause 26.8, and the Distributor's liability is or would have been reduced if the obligation had been performed.
- (d) Where the Distributor is liable to pay the Trader any amount in accordance with this clause 26.8 in respect of property damage which is not related to the property of the Trader, the Trader agrees that it will pass through the amount received by it from the Distributor in relation to that property damage to the owner of the affected property (whether or not that person is a Customer) without deduction or set-off. The Distributor may, with the prior written consent of the Trader (such consent not to be unreasonably withheld or delayed), pay such amount directly to the property owner instead of the Trader. In such circumstances, the Trader will provide the Distributor with such information as required to enable the Distributor to make the payment and the Distributor will provide supporting written evidence of this to the Trader as soon as reasonably practicable after making such payment.

26.9 Payment arrangements: If the Distributor is required to indemnify the Trader under section 46A of the Consumer Guarantees Act 1993, the Distributor must promptly pay the Trader the amounts due under that Act.

26.10 Dispute resolution: Any dispute between the Distributor and the Trader relating to the existence or allocation of liability under section 46A of the Consumer Guarantees Act 1993 must be dealt with by each party in accordance with the Dispute Resolution Scheme or, if the dispute is not accepted by the scheme, the parties must deal with the dispute in accordance with clause 23.

27. FURTHER INDEMNITY

27.1 Distributor will be indemnified: Subject to clause 28, the Trader indemnifies and holds harmless the Distributor and will keep the Distributor indemnified and held harmless from and against any direct loss or damage (including legal costs on a solicitor/own client basis) suffered, or incurred by the Distributor arising out of or in connection with:

- (a) any claim by any person with whom the Trader has a contractual relationship in relation to the provision of services or the conveyance of electricity on the Network to the extent that the claim arises out of or could not have been made but for:
 - (i) any breach by the Trader of any of its obligations under this Agreement;
 - (ii) the disconnection by the Trader, or disconnection requested by the Trader, of any Customer's Premises in accordance with this Agreement, unless the disconnection is necessary to comply with Good Electricity Industry Practice or if the disconnection is due to this Agreement being terminated for the Distributor's breach or Insolvency Event;
 - (iii) the termination of this Agreement by the Trader, except when the termination is the result of a breach by the Distributor or the Distributor suffering an Insolvency Event;
 - (iv) any failure by the Trader to perform any obligation under any agreement between the Trader and any Generator or Customer or other third party;
 - (v) any failure by the Trader to comply with its obligations required by law or regulation; or
 - (vi) any action undertaken by the Distributor under or in connection with this Agreement at the request of the Trader; and
- (b) any recovery activity of the Distributor in respect of any unpaid charges or interest payable under this Agreement.

27.2 Trader will be indemnified: Subject to clause 28, the Distributor indemnifies and holds harmless the Trader and will keep the Trader indemnified and held harmless from and against any direct loss or damage (including legal costs on a solicitor/own client basis), suffered, or incurred by the Trader arising out of or in connection with:

- (a) any claim by any person with whom the Distributor or Trader has a contractual relationship in relation to the provision of services or conveyance of electricity to the extent that claim arises out of or could not have been made but for:
 - (i) any breach by the Distributor of its obligations under this Agreement;
 - (ii) the disconnection by the Distributor of any Customer's Premises in accordance with this Agreement, unless the disconnection is necessary to comply with Good Electricity Industry Practice or if the disconnection is due to this Agreement being terminated for the Trader's breach or Insolvency Event;
 - (iii) the termination of this Agreement by the Distributor, except when the termination is the result of a breach by the Trader or the Trader suffering an Insolvency Event;
 - (iv) any failure by the Distributor to perform any obligation under any agreement between the Distributor and the System Operator or any other third party;
 - (v) any failure by the Distributor to comply with its obligations required by law or regulation; or
 - (vi) any action undertaken by the Trader under or in connection with this Agreement at the request of the Distributor; and
- (b) any recovery activity of the Trader in respect of any unpaid charges or interest payable under this Agreement.

27.3 Other rights and remedies not affected: The indemnities in this clause 27 are in addition to, and without prejudice to, the rights and remedies of each party under this Agreement or under statute or in law, equity, or otherwise.

28. CONDUCT OF CLAIMS

- 28.1 **Third Party Claim:** This clause applies if a party with a right of indemnity under clause 27 (“**Indemnified Party**”) seeks or may seek to be indemnified by the other party (“**Indemnifying Party**”) under clause 27 in respect of a claim by any person of the kind described in clause 27.1(a) or 27.2(a) (“**Third Party Claim**”).
- 28.2 **Indemnified Party to give Notice of Third Party Claim:** The Indemnified Party must give notice of the Third Party Claim (including reasonable details) to the Indemnifying Party and ensure that the Indemnified Party does not make any payment or admission of liability in respect of the Third Party Claim.
- 28.3 **Indemnifying Party may act in relation to Third Party Claim:** The Indemnifying Party may, at its election, in the name of the Indemnified Party, but only after consultation with the Indemnified Party and so that the reputation of the Indemnified Party is not unfairly harmed, conduct all negotiations and defend any proceedings relating to the Third Party Claim. For this purpose, the Indemnified Party must make available to the Indemnifying Party all such information, books and records, and co- operate (including making available employees as witnesses) as the Indemnifying Party may reasonably require for the purpose.
- 28.4 **Indemnified Party to keep Indemnifying Party informed:** If and for so long as the Indemnifying Party does not assume the defence of the Third Party Claim, the Indemnified Party must:
- (a) keep the Indemnifying Party fully informed of the Indemnified Party’s progress in defending the Indemnified Claim and of any related proceedings; and
 - (b) at the Indemnifying Party’s request, consult with, and take account of the reasonable views of, the Indemnifying Party so far as reasonably practicable in the relevant Indemnified Party’s defence of the Third Party Claim and any related proceedings.
- 28.5 **Third Party Claim not to be settled without consent:** The Indemnified Party must not, without the prior written consent of the Indemnifying Party, settle the Third Party Claim.
- 28.6 **Indemnifying Party to be reimbursed:** If the Indemnified Party recovers from any third party any amount to which a payment made by the Indemnifying Party to the Indemnified Party under this Agreement relates, the Indemnified Party must procure that the amount so recovered by the Indemnified Party (net of the cost of recovery, but not exceeding the amount paid by the Indemnifying Party) will be reimbursed without delay to the Indemnifying Party.

29. CUSTOMER AGREEMENTS

- 29.1 **Trader to include provisions in Customer Agreements:** The following clauses apply in respect of the Trader’s Customer Agreements:
- (a) in respect of each Customer Agreement that has been entered into prior to the Commencement Date:
 - (i) at the next review date, or, if the Trader is able to unilaterally vary the Customer Agreement, within 12 months after the Commencement Date (whichever is earlier), the Trader must issue a unilateral variation to the Customer Agreement to include provisions that have substantially the same effect as the provisions required to be included in the Customer Agreement by this Agreement, and those provisions must be expressed to be for the benefit of the Distributor and enforceable by the Distributor in accordance with section 12 of the Contract and Commercial Law Act 2017; or
 - (ii) if the Trader is unable to unilaterally vary 1 or more Customer Agreements as set out in subparagraph (i), the Trader must:
 - (A) use all reasonable endeavours to obtain at the next review of each Customer Agreement, or within 12 months, whichever is earlier, the

agreement of the Customer to enter into a variation of the Customer Agreement to include the provisions required to be included in the Customer Agreement by this Agreement, and those provisions must be expressed to be for the benefit of the Distributor and enforceable by the Distributor under section 12 of the Contract and Commercial Law Act 2017; and

- (B) promptly provide notice to the Distributor if it is unable to obtain the agreement of the Customer required in subparagraph (A); or
- (b) in respect of each Customer Agreement that has been entered into after the Commencement Date, include the provisions required to be included in the Customer Agreement by this Agreement, and those provisions must be expressed to be for the benefit of the Distributor and enforceable by the Distributor in accordance with section 12 of the Contract and Commercial Law Act 2017.

29.2 Changes to Customer Agreements during term: If this Agreement is changed in accordance with clause 22.1(a) or clause 22.1(c), and the change requires the Trader to amend its Customer Agreements, the Trader must take such steps as are necessary to amend those agreements.

29.3 Trader to indemnify Distributor: Subject to clause 24, the Trader indemnifies the Distributor against any direct loss or damage incurred by the Distributor as a result of the Trader's failure to meet its obligations in accordance with clause 29.1.

30. NOTICES

30.1 Delivery of Notices: Any notice given under this Agreement must be in writing and will be deemed to be validly given if personally delivered, posted, or sent by facsimile transmission or email to the address for notice set out on the execution page of this agreement or to such other address as that party may notify from time to time.

30.2 Receipt of Notices: Any notice given under this Agreement will be deemed to have been received:

- (a) in the case of personal delivery, when delivered;
- (b) in the case of facsimile transmission, when sent, provided that the sender has a facsimile confirmation receipt recording successful transmission;
- (c) in the case of posting, 3 Working Days following the date of posting; and
- (d) in the case of email, when actually received in readable form by the recipient, provided that a delivery failure notice has not been received by the sender, in which case the notice will be deemed not to have been sent.

30.3 Deemed receipt after 5pm or day that is not Working Day: Any notice given in accordance with clause 30.2 that is personally delivered or sent by facsimile or email after 5pm on a Working Day or on any day that is not a Working Day will be deemed to have been received on the next Working Day.

31. ELECTRICITY INFORMATION EXCHANGE PROTOCOLS

31.1 Protocols for exchanging information: The Distributor and the Trader must, when exchanging information to which an EIEP listed in Schedule 3 relates, comply with that EIEP.

31.2 Customer information: The Trader will on reasonable written request from the Distributor, and within a reasonable timeframe, provide the Distributor with such Customer information as is reasonably available to the Trader and necessary to enable the Distributor to fulfil its obligations in accordance with this Agreement. The information will be treated by the Distributor as Confidential Information and the Distributor expressly acknowledges and

agrees that it is not authorised to, and will not, use such information in any way or form other than as permitted by this clause 31.2.

- 31.3 **Auditing information provided:** To enable either party to this Agreement (the “**Verifier**”) to verify the accuracy of information provided to it by the other party to this Agreement (the “**Provider**”), the Provider will allow the Verifier and its agents reasonable access to the Provider’s books and records (the “**Records**”) to the extent that those Records relate to the obligations of the Provider under this Agreement. Access to such Records will be given at all reasonable times providing the Verifier has given the Provider not less than 10 Working Days’ prior notice. If the Trader is the Provider and any relevant information is held by a third party Metering Equipment owner or operator, the Trader will procure access to the third party Metering Equipment owner or operator’s books and records for the benefit of the Distributor (provided that doing so does not impose any additional costs on the Trader).
- 31.4 **Limitations on the Verifier:** In relation to its review of the Records under clause 31.3, the Verifier will not:
- (a) use the information obtained for any purpose other than verifying the accuracy of information provided by the Provider under this Agreement; and
 - (b) engage as its agent any person that is in competition with the Provider, any person who is related to a person in competition with the Provider, or any employee, director, or agent of such persons. For the purposes of this clause 31.4(b), a person is related to another person if it is a related company (as that term is defined in section 2(3) of the Companies Act 1993) of that other person.
- 31.5 **Independent Auditor:** If:
- (a) the Provider is the Distributor and, acting reasonably, gives notice that the Records contain information about other industry participants that cannot reasonably be severed from the information relating to the Trader or that the information is commercially sensitive; or
 - (b) the provider is the Trader and, acting reasonably, gives notice that the Records contain information about other industry participants that cannot reasonably be severed from information relating to the Distributor or that the information is commercially sensitive,
- then the Distributor or the Trader, as appropriate, will permit an independent auditor (the “**Auditor**”) appointed by the other party to review the Records and the other party will not itself directly review any of the Records. The Distributor or the Trader, as appropriate, will not unreasonably object to the Auditor appointed by the other party. In the event that the Distributor or the Trader, as appropriate, reasonably objects to the identity of the Auditor, the parties will request the President of the New Zealand Law Society (or a nominee) to appoint a person to act as the Auditor. The party that is permitted by this clause 31.5 to appoint an Auditor will pay the Auditor’s costs, unless the Auditor discovers a material inaccuracy in the Records in which case the other party will pay the Auditor’s costs. The terms of appointment of the Auditor will require the Auditor to keep the Records confidential.
- 31.6 **Provider will co-operate:** The Provider will co-operate with the Verifier or the Auditor (as the case may be) in its review of the Provider’s Records under clause 31.3 or 31.5 and will ensure that the Records are readily accessible and readable.

32. MISCELLANEOUS

- 32.1 **No waiver:** Unless a party has signed an express written waiver of a right under this Agreement, no delay or failure to exercise a right under this Agreement prevents the exercise of that or any other right on that or any other occasion. A written waiver applies only to the right and to the occasion specified by it.

- 32.2 **Entire agreement:** This Agreement records the entire agreement, and prevails over any earlier agreement concerning its subject.
- 32.3 **No assignment:** Neither party may assign any benefit or burden under or in relation to this Agreement without the prior written consent of the other party, such consent not to be unreasonably delayed or withheld. For the purposes of this clause 32.3, unless a party is listed on the New Zealand Stock Exchange, a change in control of a party will be deemed to be an assignment.
- 32.4 **Severance:** Any unlawful provision in this Agreement will be severed, and the remaining provisions enforceable, but only if the severance does not materially affect the purpose of, or frustrate, this agreement.

33. INTERPRETATION

- 33.1 **Interpretation:** Unless the context otherwise requires or specifically otherwise stated:

 - (b) "including" and similar words do not imply any limitation;
 - (c) references to any form of law is to New Zealand law, including as amended or re-enacted;

- S1.3 If a Customer advises the Distributor of a breach or a suspected breach of a Service Standard that is subject to a Service Guarantee Payment, the Distributor must, unless clause S1.5 applies:
- (a) give notice to the Trader responsible for the Customer as soon as reasonably practicable; and
 - (b) investigate and advise the Customer and the Trader of the results of the investigation including confirming whether a Service Guarantee Payment is to be made in respect of any breach.
- S1.4 If the Distributor breaches a Service Level that is subject to a Service Guarantee Payment, it must, unless clause S1.5 applies, notify the Trader as soon as reasonably practicable and no later than 10 Working Days after becoming aware of the breach. The notification must include:
- (a) the ICP identifier of each ICP affected and the Service Guarantee Payment owed by ICP and in total (if applicable);

- S1.7 Despite clauses S1.4 and S1.6, where the Distributor breaches a Service Level that is subject to a Service Guarantee Payment and a Customer whose ICP has been affected makes a request directly to the Distributor for an applicable Service Guarantee Payment to be made to the Customer, in the interests of prompt resolution, the Distributor may pay the Service Guarantee Payment directly to the Customer.
- S1.8 The parties acknowledge that the Service Guarantee Payments are set at a level to provide reasonable compensation to affected Customers in respect of the Distributor's failure to meet the relevant Service Level, and are not a penalty.
- S1.9 The Distributor's failure to meet any Service Standard or Service Level (or any associated procedural requirements in this Schedule) will not constitute a breach of this Agreement, and the Trader will have no remedy for such failure except to the extent the Trader is expressly entitled to claim a Service Guarantee Payment for the failure in accordance with this Agreement.

- (iv) [information in respect of half hour ICPs as described in EIEP3 for which the Distributor has specified half hour metering information for the application of Prices, or where time blocked periods are specified by the Distributor for the application of Prices and the Trader has agreed in writing to the provision of half hour metering information; and]
- (d) the Distributor must calculate the charges based on the Prices that apply to each chargeable quantity to which the Tax Invoice relates.

Note: include this additional sentence if relevant.

[In respect of replacement RM normalised consumption information, the Trader must provide revised consumption information to the Distributor in accordance with EIEP1[, EIEP2][, or EIEP3], as relevant.]

Note: This clause is appropriate for GXP-priced Distribution Services.

[The Trader must provide consumption information to the Distributor, and the Distributor must obtain reconciliation information from the reconciliation manager and calculate Distribution Services charges payable by the Trader, in accordance with the following:

- (a) the Distributor must arrange for the reconciliation manager to provide the Distributor with reconciliation information attributable to the Trader and other relevant information that, subject to paragraph (b), the Distributor reasonably requires to enable it to calculate its Tax Invoice for Distribution Services charges payable by Trader. The Trader must, if necessary, advise the reconciliation manager that the Trader agrees to the Distributor obtaining its reconciliation information;*
- (b) the Trader must provide to the Distributor, no later than 5 Working Days after the end of each month, any information additional to that obtainable by the Distributor from the reconciliation manager that the Distributor reasonably requires to enable it to calculate its Tax Invoice for Distribution Services charges payable by Trader. Such information must be provided in accordance with the relevant EIEP; and*
- (c) the Distributor must calculate the charges based on the Prices that apply to each quantity to which the Tax Invoice relates.]*

SCHEDULE 5 – SERVICE INTERRUPTION COMMUNICATION REQUIREMENTS

Unplanned Service Interruptions

Requirements for operational terms:

This section must set out:

- (a) *the information that the Distributor must provide to the Trader if the Distributor becomes aware of 1 or more Unplanned Service Interruptions caused by an area Network fault (being a Network fault that affects a group of customers within an area) or a System Emergency Event, including identifying the affected area or areas and the expected time for restoration of electricity supply in each area;*
- (b) *requirements related to provision by the Distributor of updated information about the status of Unplanned Service Interruptions, including:*

 - (ii) *confirmation of areas restored and areas that remain without electricity supply;*
- (c) *whether the Trader or the Distributor is responsible for receiving and managing Unplanned Service Interruption calls from Customers and managing further communication with affected Customers until electricity supplies are restored, and the parties' obligations to exchange information; and*
- (d) *the situations that would trigger the Distributor's public and media communications processes and the communications channels and methods the Distributor uses when communicating with the public and media.*

Examples of clauses that may comply are set out in clauses S5.1 to S5.22. Revise as appropriate and then delete this dashed box.

Option A – Distributor responsible for receiving and managing communications from Customers

S5.1 The Distributor and the Trader agree that the Distributor is responsible for receiving and managing communications from Customers about Unplanned Service Interruptions on the Distributor's network.

S5.2 The Trader must advise the Customers on the Distributor's network for whom the Trader is responsible:

- (b) *of the Distributor's contact details for Customers in relation to Unplanned Service Interruptions.*

S5.3 The Distributor must provide the Trader with information about an Unplanned Service Interruption [affecting 20 or more Customers] that enables the Trader to respond in an informed manner to calls from affected Customers.

S5.4 The Distributor must provide information under clause S5.3 as soon as reasonably practicable after first becoming aware of the Unplanned Service Interruption and:

- (a) *for Unplanned Service Interruptions that occur in staffed control room hours, no later than 10 minutes after the Distributor becomes aware of the*

interruption; and

- (b) for Unplanned Service Interruptions that occur in on-call control room hours, no later than 40 minutes after the Distributor becomes aware of the interruption.*

S5.6 Unless otherwise agreed, the Distributor must, within 10 minutes of new information about an Unplanned Service Interruption becoming available to the Distributor and at intervals of no longer than 60 minutes, provide the Trader with an update of the status of the Unplanned Service Interruption, until the Distributor advises the Trader of a firm restoration time.

S5.7 If the expected restoration time advised by the Distributor to the Trader is likely to be exceeded, the Distributor must endeavour to inform the Trader of the new expected restoration time at least 10 minutes before the expected restoration time elapses.

S5.8 Unless otherwise agreed, no later than 10 minutes after a full or partial restoration of supply, the Distributor must provide the Trader with details of the areas restored.

S5.9 The Trader must, within 10 minutes of receiving information relating to a possible Unplanned Service Interruption, log the call with the Distributor by electronic file transfer, or by any other information exchange method agreed by the parties. Option B – Trader responsible for receiving and managing communications from Customers

S5.13 The Distributor and the Trader agree that the Trader is responsible for receiving and managing communications from Customers about Unplanned Service Interruptions on the Distributor's network.

S5.14 The Distributor must provide the Trader with information about an Unplanned Service Interruption [affecting 20 or more Customers] that enables the Trader to respond in an informed manner to calls from affected Customers.

S5.15 The Distributor must provide information under clause S5.14 as soon as reasonably practicable after first becoming aware of the Unplanned Service Interruption and:

- (a) for Unplanned Service Interruptions that occur in staffed control room hours, no later than 10 minutes after the Distributor becomes aware of the interruption; and*
- (b) for Unplanned Service Interruptions that occur in on-call control room hours, no later than 40 minutes after the Distributor becomes aware of the interruption.*

S5.16 The information provided under clause S5.14 must:

- (a) unless otherwise agreed, be provided by electronic file transfer in accordance with EIEP5B; and*
- (b) include, if known, a description of the reason for the interruption, the areas affected, and an expected time for restoration.*

S5.17 Unless otherwise agreed, the Distributor must, within 10 minutes of new information about an Unplanned Service Interruption becoming available to the Distributor and at intervals of no longer than 60 minutes, provide the Trader with an update of the status of the Unplanned Service Interruption, until the Distributor advises the Trader of a firm restoration time.

S5.18 If the expected restoration time advised by the Distributor to the Trader is likely to be exceeded, the Distributor must endeavour to inform the Trader of the new expected restoration time at least 10 minutes before the expected restoration time elapses.

S5.19 Unless otherwise agreed, no later than 10 minutes after a full or partial restoration of supply, the Distributor must provide the Trader with details of the areas restored.

S5.20 The Trader must, within 10 minutes of receiving information relating to a possible Unplanned Service Interruption, log the call with the Distributor by electronic file transfer, or by any other information exchange method agreed by the parties. The Distributor may at any time advise the Trader to stop logging calls with the Distributor.

S5.21 The Distributor must implement its public and media communication process in the following situations:

- (a) a significant Unplanned Service Interruption that exceeds, or is expected to exceed, 30 minutes in duration, and that affects (without limitation):*
 - (i) more than 1,000 customers;*

Planned Service Interruptions

Requirements for operational terms: *This section must set out the parties' obligations and the process that must be followed to notify Customers if the Distributor wishes to undertake a Planned Service Interruption.*

If the Trader is the party that must notify Customers of a Planned Service Interruption, this section must set out:

- (a) *the information the Distributor must provide to the Trader if the Distributor wishes to undertake a Planned Service Interruption, which must include:*
 - (i) *the ICP identifiers of the affected ICPs; and*
 - (ii) *the information exchange format and procedure with which the parties must comply;*
- (b) *the process and timeframes the Trader must comply with when notifying affected Customers for which it is responsible of the Planned Service Interruption;*
- (c) *a process for the Trader to request an alternative date and time for the Planned Service Interruption and for the Distributor to consider such requests; and*
- (d) *the steps the Distributor must take if it intends to undertake a Planned Service Interruption on an urgent basis; and*
- (e) *whether or not the Distributor must meet the reasonable costs incurred by the Trader in notifying Customers of Planned Service Interruptions.*

If the Distributor is the party that must notify Customers of a Planned Service Interruption, this section must set out:

- (a) *the process the Distributor must follow to obtain Customer information held by the Trader that is necessary to enable the Distributor to provide notifications about Planned Service Interruptions;*

- (b) *the information the Distributor must provide to Customers affected by the Planned Service Interruption; and*
- (c) *the information the Distributor must provide to the Trader about the Planned Service Interruption, including the:*
 - (i) *affected ICP identifiers;*
 - (ii) *amount of notice given to Customers; and*
 - (iii) *the information exchange format and procedure with which the parties must comply.*

Examples of clauses that may comply are set out in clauses S5.11 to S5.19. Revise as appropriate and then delete this dashed box.

Note: The 2 options below reflect common arrangements. If a hybrid arrangement operates (eg, Trader notifies normally but Distributor's contractor notifies directly affected customers for small jobs, say < 20 ICPs) suitable additional clauses must be added.

Option A – Trader to notify Customers

- S5.23 The Distributor and the Trader agree that for any Planned Service Interruptions on the Distributor's network the Trader is responsible for notifying each Customer on the Distributor's network who the Distributor identifies as being affected by the Planned Service Interruption and for whom the Trader is responsible.*
- S5.24 The Distributor must provide the Trader with notice of a Planned Service Interruption in accordance with the relevant EIEP at least 10 Working Days prior to the date on which the Planned Service Interruption is scheduled, including the ICP identifiers that the Distributor's information system indicates will be affected by the Planned Service Interruption. On receipt of such notice, the Trader must promptly notify affected Customers for whom it is responsible of the Planned Service Interruption.*
- S5.25 The Trader may no later than 2 Working Days after receipt of such notice, notify the Distributor of any Customers who would be adversely affected by the interruption and request an alternative date and/or time for the Planned Service Interruption.*
- S5.26 If the Distributor receives a request from the Trader for an alternative date and/or time for the Planned Service Interruption in accordance with the timeframe in clause S5.25, the Distributor must consider in good faith the request and may, in its sole discretion, change the time and/or date of the Planned Service Interruption. If the Distributor makes such a change, the Distributor must provide the Trader with notice of the new date and/or time at least 7 Working Days before the original date of the Planned Service Interruption.*
- S5.27 If a Planned Service Interruption is necessary on a more urgent basis for reasons of emergency repairs, the Distributor must provide the Trader with a notice of the Planned Service Interruption in accordance with clause S5.24 as soon as reasonably practicable.*
- S5.28 If a Planned Service Interruption will affect all customers supplied from a Network Supply Point, the Distributor may, in addition to providing the notices required in clauses S5.24, S5.26 and S5.27, arrange for public notification through a local newspaper, or other effective method, on behalf of all traders.*
- S5.29 The Distributor must meet the reasonable costs incurred by the Trader in notifying Customers of Planned Service Interruptions, except where such notification is directly attributable to a failure by the Trader in the first instance to notify Customers or due to a change to the Planned Service*

Interruption at the Trader's request (but not due to a request from one or more Customers of the Trader).

Option B – Distributor to notify Customers

S5.30 The Distributor and the Trader agree that for any Planned Service Interruptions on the Distributor's network the Distributor is responsible for notifying each Customer on the Distributor's network who the Distributor identifies as being affected by the Planned Service Interruption.

S5.31 For all Planned Service Interruptions, the Distributor must provide each of the Customers it identifies as being affected with a notice specifying the time and date of the Planned Service Interruption and the reason for the interruption. The Distributor must endeavour to provide the notice at least 10 Working Days before the date on which the Planned Service Interruption is scheduled but, in any event, at least 4 Working Days before the date on which the Planned Service Interruption is scheduled. Such notice will be provided in a manner determined by the Distributor acting reasonably.

Note: the 4 Working Day timeframe in clause S5.31 may need to be longer than 4 Working Days if, for example, the Trader elects to provide its own written/telephone notification to medically dependent consumers who would be affected by the Planned Service Interruption.

S5.32 If required, and despite the terms of an agreement between the parties on the terms set out in Appendix B or Appendix C of Schedule 12A.1 of the Code [or any other historical agreement between the parties] (if applicable), the Trader must provide Customer contact information to the Distributor on a monthly basis (or such other time period agreed in writing by the parties). The information must be provided in accordance with EIEP4. Any information provided by the Trader to the Distributor under this clause will be Confidential Information. The Distributor must reimburse the Trader for any reasonable costs associated with the Trader providing the Customer contact information to the Distributor under this clause.

S5.33 The Distributor must provide the Trader with notice of the Planned Service Interruption in accordance with EIEP5A at least 4 Working Days before the Planned Service Interruption is scheduled to occur.

S5.34 Despite clauses S5.31 and S5.33, it is acknowledged and agreed that events or circumstances may prevent the Distributor from providing at least 4 Working Days' prior notice of a Planned Service Interruption to affected Customers and Traders, in which case the Distributor must provide the affected Customers and Traders with as much prior notice as reasonably practicable.

S5.35 The Distributor must promptly notify affected Customers and the Traders responsible for them of any change to a Planned Service Interruption, where such change includes the timing of, the cancellation of, and the Customers affected by, the Planned Service Interruption.

SCHEDULE 6 – CONNECTION POLICIES

Requirements for operational terms: *This Schedule 6 must set out the parties' obligations and the processes that must be followed related to the management of Network connections. This Schedule 6 must set out comprehensive processes for facilitating:*

- (a) new connections to the Network;*
- (b) capacity changes to existing connections;*
- (c) Temporary Disconnections and associated reconnections;*
- (d) Vacant Site Disconnections and associated reconnections; and*
- (e) Decommissioning.*

Examples of clauses that may comply are set out in clauses S6.1 to S6.27. Revise as appropriate and then delete this dashed box.

Introduction

S6.1 This Schedule sets out the processes that the Distributor and Trader must follow in respect of facilitating:

- (a) new connections to the Network;*
- (b) capacity changes to existing connections;*
- (c) Temporary Disconnections and associated reconnections;*
- (d) Vacant Site Disconnections and associated reconnections; and*
- (e) Decommissioning.*

Process for new connections or changes in capacity

S6.2 The Distributor may receive applications from:

- (a) the owner of a premises not currently connected to the Network or the owner's agent that is or intends to be a Customer (the "Requesting Party"), or the Trader on behalf of a Requesting Party, for a new connection to be created; and*
- (b) a Customer (the "Requesting Party"), or the Trader on behalf of a Requesting Party, for an increase or decrease in the capacity of an existing connection.*

S6.3 The Distributor must undertake an impact assessment to determine whether the capacity required for the connection is already available or whether a Network upgrade is required. If, acting reasonably, the Distributor considers that a Network upgrade is required, or that other works are required, the Distributor must advise the Requesting Party of the terms on which the Distributor is prepared to undertake the necessary works. If the application is declined the Distributor must provide the reasons for its decision.

S6.4 If the Distributor and Requesting Party agree on terms under which the Distributor will supply a new connection or change the capacity of an existing connection, the Distributor must advise the Trader of the following no later than 2 Working Days after agreement was reached (provided that the Distributor knows that the Requesting Party is a Customer):

- (a) the ICP identifier for the new connection;*
- (b) the NSP to which the ICP is or will be connected; and*
- (c) the allocated Price Category, provided that if the ICP is eligible for more than 1 Price Category, the Trader may advise the Distributor of its preferred Price Category in accordance with clause 8.4.*

S6.5 The Distributor or the Trader (if authorised by the Distributor) must arrange for the

ICP to be electrically connected to the Network by a Warranted Person once approval has been granted by the Distributor. The party that undertakes the electrical connection to the Network must, unless otherwise agreed, notify the other party within 2 Working Days of the ICP being electrically connected, and provide to the other party a copy of a certificate of compliance and record of inspection for the site under the Electricity (Safety) Regulations 2010, where relevant.

Timeframe for electrically connecting standard new connections

S6.6 A standard new connection must be electrically connected to the Network within 2 Working Days following a request by the Trader if:

- (a) all necessary equipment is in place;*
- (b) Network upgrades or extensions are not required; and*
- (c) all other necessary requirements are met.*

S6.7 The timeframe for electrically connecting an ICP that does not meet the requirements set out in clause S6.6 must be agreed by the parties.

Temporary Disconnections and associated reconnections

Note: Clauses S6.8 – S6.22 provide that either party may carry out Temporary Disconnections in specified circumstances.

Clause 17.3 provides that only a Warranted Person may undertake connection or disconnection work that requires access to any Distributor's Equipment (such as a pole or pillar fuse or isolation link). This would not prevent a Trader from undertaking a Temporary Disconnection using a method that does not involve access to the Network (eg, using suitable advanced Metering Equipment functionality, removing conductors from meter terminals and resealing the meter, or locking open a suitable isolation device located within the Customer's Premises).

S6.8 The parties agree that Temporary Disconnection of an ICP at which the Trader supplies electricity may be carried out by the Trader in the following circumstances:

- (a) if in an emergency it is necessary to avoid endangering persons or property;*
- (b) for credit reasons; or*
- (c) if requested by the Customer, for safety or other reasons.*

S6.9 The Trader must, subject to clause 29.1, ensure that each of its Customer Agreements provides that the Distributor may perform a Temporary Disconnection in relation to a Customer's ICP in the following circumstances:

- (a) it is necessary to avoid endangering persons or property;*
- (b) there has been an occurrence, or there are circumstances, that may adversely affect the proper working of the Network or the Grid;*
- (c) in the circumstances set out in clause 3.7;*
- (d) in accordance with clause 11.3;*
- (e) if a Customer does any of the things prohibited under clauses 12.1 or 12.7, or fails to do any of the things required of it as contemplated in clause 13; or*
- (f) on termination of this Agreement.*

S6.10 Subject to clause 17.4 (which relates to medically dependent and vulnerable Customers), if the Distributor intends to perform a Temporary Disconnection under clause S6.9, the Distributor must give the Trader notice of the Temporary Disconnection as follows:

- (a) the Distributor must give the Trader at least 5 Working Days' notice of disconnection if the Distributor intends to perform a*

Temporary Disconnection because:

- (i) the Customer failed to provide the Distributor with access in accordance with its Customer Agreement; or*
- (ii) the Customer damaged or interfered with the Distributor's Equipment or Network; or*
- (b) the Distributor must give the Trader at least 10 Working Days' notice of disconnection if the Distributor intends to perform a Temporary Disconnection because the Customer failed to do any of the things required of it as contemplated in clause 11.*

S6.11 The notice of Temporary Disconnection provided by the Distributor to the Trader under clause S6.10 must specify:

- (a) the ICP identifier of the relevant Customer;*
- (b) the particulars of the Customer breach;*
- (c) the remedy required if disconnection is to be avoided; and*
- (d) the date on which disconnection will occur if the breach is not previously remedied to the Distributor's reasonable satisfaction.*

S6.12 On receipt of a notice under clause S6.10, the Trader must promptly forward a physical notice to the relevant Customer and include mail, email and telephone contact details that the Customer may use to contact the Trader about the matter. The Trader must promptly forward to the Distributor any response received from the Customer and the Distributor must consider in good faith all such responses it receives. The Trader and the Distributor must work together to ensure that communications are co-ordinated and promptly communicated to the relevant party.

S6.13 Subject to clause 17.4 (which relates to medically dependent and vulnerable Customers):

- (a) if the Distributor intends to perform a Temporary Disconnection under clause S6.9(f), the grounds for the Temporary Disconnection are not being reasonably Disputed by the Trader, and the Distributor has taken reasonable steps to avoid the need for a Temporary Disconnection, the Distributor must give each Customer:*
 - (i) at least 9 Working Days' notice of warning of disconnection before any disconnection, such notice to include the reason for the Temporary Disconnection and be sent to each Customer's last address provided to the Distributor by the Trader, or if no address has been provided as the Trader has no Customer at that ICP, the notice must be sent to the Customer's address on the Registry, and the Distributor must provide information about the Temporary Disconnection by way of general advertisement and publication on the Distributor's website;*
 - (ii) a final warning not less than 48 hours nor more than 7 days before the disconnection. The final warning must provide the timeframes for disconnection. This must be a separate notice to the notice provided at least 9 Working Days before disconnection;*
 - (iii) if disconnection is not completed within the timeframes notified, the Distributor must issue another final warning not less than 48 hours nor more than 7 days before disconnection;*
- (b) if the Distributor intends to perform a Temporary Disconnection as contemplated by clause S6.9(a) or S6.9(b), the Distributor must use its best*

endeavours to give each Customer as much prior notice as reasonably practicable, but in any event must notify each Customer no later than 2 days after the Temporary Disconnection.

S6.14 The party that performs a Temporary Disconnection in respect of a Customer must (unless otherwise agreed) notify the other party of that fact no later than 2 Working Days after the Temporary Disconnection. To avoid doubt, the status of the ICP in the Registry must be changed to "inactive" only if the Temporary Disconnection remains in effect for more than 5 Working Days.

S6.15 If either party has performed a Temporary Disconnection in respect of a Customer's ICP, the party that performed the Temporary Disconnection must take reasonable steps to arrange restoration of supply to the ICP as soon as reasonably practicable and in any case:

- (a) no later than 3 Working Days after conditions for reconnection have been satisfied; or*
- (b) by any other date agreed with the Customer.*

Vacant Site Disconnections and associated reconnections

S6.16 The Trader may undertake a Vacant Site Disconnection of an ICP if:

- (a) the Trader is recorded as the trader for the ICP in the Registry;*
- (b) the ICP has an "active" status in the Registry; and*
- (c) in respect of that ICP, no Customer Agreement exists with the Trader.*

S6.17 The Trader must undertake a Vacant Site Disconnection of an ICP without delay if the ICP meets the criteria set out in clause S6.16 and the ICP has been inactive for at least 30 Working Days.

Note: Clause S6.18 assumes that the Distributor has no interest in the energisation status of any ICP. If it does, additional provisions will be needed.

The second sentence of clause S6.18 is written to ensure proof of compliance with the requirements of regulation 74(3) of the Electricity (Safety) Regulations 2010.

S6.18 The Trader may reconnect an ICP that is subject to a Vacant Site Disconnection if it wishes to supply electricity to that ICP. If the ICP has not been electrically connected for more than 6 months, the Trader must either request an inspection from the Distributor (if the Distributor provides this service) or advise the Customer to procure its own safety inspection using a person authorised to certify mains work. A copy of the certificate issued following such an inspection must either be provided to the Distributor, or held by the Trader at the Trader's offices for the later inspection by the Distributor, before the ICP is Re-energised.

S6.19 The Trader must ensure that Vacant Site Disconnections and associated reconnections are carried out in accordance with the Distributor's reasonable operational work practices for managing vacant sites. If a Vacant Site Disconnection or the associated reconnection requires access to any Network equipment or Distributor's Equipment, it must be carried out by a Warranted Person.

S6.20 The Trader may give the Distributor notice that the Distributor is responsible for completing the Vacant Site Disconnection for an ICP if:

- (a) the Trader wishes to carry out a Vacant Site Disconnection for the ICP;*
- (b) the Distributor has not provided an exclusive and accessible isolation device for that ICP; and*
- (c) the Trader has not been able to complete a Vacant Site Disconnection in*

accordance with Good Electricity Industry Practice for that ICP after 2 separate site visits for that purpose by a Warranted Person, including by seeking to disconnect at the ICP at the meter(s).

S6.21 If the Trader gives the Distributor notice under clause S6.20:

- (a) the Distributor must endeavour in accordance with Good Electricity Industry Practice to complete the Vacant Site Disconnection;*
- (b) the Distributor must investigate provision of an accessible isolation device for the ICP but is not required to install such a device if it considers in its opinion that it would be impractical or unreasonably costly to do so; and*
- (c) the Trader must continue to use reasonable endeavours to seek to gain access to the ICP meter to meet its obligations under the Code.*

S6.22 The party performing the disconnection or reconnection must, unless otherwise agreed, notify the other party within 2 Working Days after completion of the work.

Decommissioning an ICP

S6.23 A Distributor may Decommission an ICP in the following circumstances, provided that the requirements of section 105 of the Act and Part 11 of the Code are met:

- (a) the Distributor is advised by a Customer, landowner or the Trader that electricity is no longer required at the ICP;*
- (b) it is necessary to Decommission the ICP because public safety is at risk;*
- (c) the Registry notifies the Distributor that the ICP has the status of "Inactive", with the reason given "De-energised – ready for decommissioning", the ICP has been De-energised and the Trader has attempted to recover any Metering Equipment; or*
- (d) if the Distributor has not provided Distribution Services in respect of the ICP for 6 months or more.*

S6.24 If a Distributor intends to Decommission and clauses S6.23(a) or (d) apply, the Distributor must, unless advised by the Trader, notify the Trader before Decommissioning the ICP to enable the Trader to arrange for removal of the Metering Equipment (if appropriate) and update the Registry.

S6.25 A party Decommissioning an ICP must do so by removing all or part of the Customer Service Line to the ICP, or if a shared Customer Service Line forms part of the supply, by isolating and removing the load side cable from the main switch at the meter board. In all circumstances, the property must be left electrically safe.

S6.26 If an ICP has the status of "Decommissioned" on the Registry, the ICP identifier must not be used again and the process for new connections must be followed if supply is required again at the property.

SCHEDULE 7 – PRICING

Requirements for operational terms: This Schedule 7 must set out how the Trader can access information that provides comprehensive policy and detail of the Distributor's current:

- (a) Pricing Structure;
- (b) Price Categories, and the eligibility criteria for each Price Category;
- (c) Price Options (if any); and
- (d) Prices.

SCHEDULE 8 – LOAD MANAGEMENT

Use of controllable load

S8.1 A party may use a Load Control System for 1 or more of the following purposes, which are ranked in order of priority, provided that it has obtained the right to control the load in accordance with clause 5.1 or 5.2:

- (a) **Grid Emergency:** As defined in Part 1 of the Electricity Industry Participation Code 2010;
- (b) **Market participation:** Any other right to control load.

S8.2 If both parties have obtained the right to control all or parts of the consumer's load in accordance with clause 5.1 or 5.2, and both parties want to control load for a purpose specified in clause S8.1 at the same time, the party entitled to control load will be the party with the higher priority rank as specified in clause S8.1.

Requirements for operational terms: If relevant, this section must set out the rights and obligations of the parties in respect of coordination of split ownership Load Control Systems. An example of a clause that may comply is set out in clause S8.3. Revise as appropriate and then delete this dashed box

Coordination of split ownership Load Control Systems

Note: Coordination is required if the Load Signalling Equipment and Load Control Equipment in a Load Control System is provided by more than 1 party. For legacy Load Control Systems in New Zealand, this normally involves the Distributor providing the Load Signalling Equipment and the Trader providing the Load Control Equipment.

S8.3 If the Trader provides Load Control Equipment that forms part of the Distributor's Load Control System, the following provisions apply:

- (a) The Distributor must provide the Trader with details of the technical characteristics of the Load Control Equipment appropriate for use with the Distributor's Load Signalling Equipment in each Network area.
- (b) If the Distributor has obtained a load control right in accordance with clause 5.1, the Trader must ensure that Load Control Equipment is installed that reliably receives the Distributor's load control signals and controls the relevant load. If the Distributor's specific Controlled Load Option makes it necessary for the Trader to install additional Metering Equipment that separately measures and records-controlled load electricity consumption, the

Trader must install the Metering Equipment (provided that the parties acknowledge that such installation does not give the Distributor the right to change the eligibility criteria for Price Categories or Price Options in a manner that would require a mass change to existing metering installations).

- (c) If the Distributor seeks to change the operating characteristics (including the signalling frequency or protocol) of its Load Signalling Equipment, the Trader and Distributor must first negotiate in good faith to agree suitable terms for the upgrade of the Trader's Load Control Equipment. If agreement is not reached, the Distributor may, at its discretion, elect to procure and install, at its own cost, suitable Load Control Equipment.*
- (d) The Distributor may periodically, but not more than once in any 12 month period, undertake an audit of Load Control Equipment performance within a Network area of its choice. The audit must assess the proper functioning of the Load Control Equipment for a randomly selected sample of ICPs to which the Trader supplies electricity. The sampling technique must be consistent with the methodology outlined in Part 10 of the Code that applies to selecting samples of meters.*
- (e) If the audit finds that Load Control Equipment for which the Trader is responsible is not functional in respect of a number that is greater than 5% of the sample, the Distributor and Trader must, within 40 Working Days of the Distributor notifying the Trader of the results of the audit, meet and agree a programme of work including scope and timeframe within which the non-functioning Load Control Equipment must be identified and either replaced or repaired. The Trader must pay the reasonable costs of any inspection (including the initial audit) and repair work identified.*
- (f) If the audit reveals that the proper functioning of Load Control Equipment is caused by low signal levels or faults on a pilot wire network that are the responsibility of the Distributor, such failures must be excluded from the audit results.*
- (g) If the audit finds that Load Control Equipment for which the Trader is responsible is functional for 95% or more of the ICPs sampled, the cost of the audit must be paid by the Distributor, but the Trader must remedy all defects found in respect of non-functional Load Control Equipment for which the Trader is responsible.*
