SYSTEM SOFTWARE RELEASE

Issues Addressed

Ref.	Raised	Description	Status
er-1546	01/05/2025	Multiple concurrent PR-190 reports (creates trader default market share information) should not be run over the same defaulting trader at the same time. The report creates persistent data views and running concurrent reports causes locking errors. Modified to cater for concurrency.	Complete
er_1566	11/07/2025	Fix small transient leak of XML objects	Complete

Documentation Updates

Audit compliance reporting user guide v2.0.pdf (added to "User_Documentation.zip download)

Enhancements

Ref.	Raised	Description	Status
er-1452	05/11/2024	Addition of a second trigger parameter for use by AC020Distribtor05 audit report (removing a previous hard coding of the 2 nd trigger)	Complete
er-1535	02/04/2025	Postproduction release of DER changes to tidy up redundant and unused section of software code	Complete
er-1559	30/06/2025	Additional switch breach timer rules catering for reread requests (RR) against switches generated by the Trader Default process (and where the defaulting trader is able to respond as they have been moved out of default)	Complete
er-1565	11/07/2025	Relaxation of restriction on submission of switch reread requests against switches generated out of a trader default (where the defaulting trader has reentered the market and is able to respond). Relaxation extended to selected participants and available until 31July inclusive).	Complete
