

CLAIM OF UNDESIRABLE TRADING SITUATION (UTS)

CONTACT DETAILS

Reporting Participant:	PMP Print
Contact Name:	Kathy Voss
E-mail:	Kathy.voss@pmpprint.co.nz
Phone:	09 979 3141
Mobile:	
Fax:	09 979 3194

BASIS OF CLAIM

Definition of “undesirable trading situation”, clause 1.1 of the Code

Specify relevant paragraphs under which Participant claims a UTS - refer to the full definition set out below

Describe why in your view the claimed UTS is a contingency or event that threatens, or may threaten, trading on the wholesale market for electricity and that would, or would be likely to, preclude the maintenance of orderly trading or proper settlement of trades.

1. PMP Print wishes to advise the Electricity Authority that it considers that a UTS should be declared relating to prices in the electricity market on 26 March 2011.
2. PMP Print considers that the EA should investigate the event and determine that the market prices for the day should be adjusted to those that reflect normal market operations.
3. Based on our initial calculations, PMP Print believes that it has suffered a potential financial loss of, \$113,000. This is over 693 times what we would expect to pay for electricity in a normal competitive market situation.
4. We are concerned that if this behaviour is allowed to continue that our business will be (seriously???) impacted. This could ultimately lead to unreasonably higher energy prices and Is commercially unviable.

Describe why, in your view, the claimed UTS could not be satisfactorily resolved by any other mechanism available under the Code.

5. PMP Print understands that the only mechanisms in the Code that would address the issues set out above is to declare a UTS.

SOLUTION SOUGHT BY APPLICANT

Clause 5.2 of the Code

Describe how in your view the claimed UTS could be resolved by the Board, bearing in mind the following powers of the Board should it find that a UTS does exist

- suspending, or limiting or curtailing, an activity on the wholesale market for electricity, either generally or for a specified period:
- deferring completion of trades for a specified period:
- directing that any trades be closed out or settled at a specified price:
- giving directions to any participant to act in a manner (not inconsistent with the Code, any regulations, the Act, or any other law) that will, in the Board's opinion, correct or assist in overcoming the undesirable trading situation:

1. *We understand that the EA has launched a formal investigation into the events.*
2. *We request that the EA consider adjusting market prices for Saturday 26 March so that they reflect what would be reasonable to expect in a normal competitive market situation.*

WHEN CLAIMED UTS OCCURRED

Date: 26 March 2011

Time: 10.30am to 5.40pm

DESCRIPTION CIRCUMSTANCES AND IMPACT

Please provide description of the circumstances surrounding the claim and include a detailed description of the impact the notifying participant suffered as a result of the claimed UTS.

During scheduled national grid maintenance carried out by Transpower last Saturday 26th March, Huntly became the primary source of electricity for parts of the North Island.

Businesses with a spot component will be severely impacted as we will be required to pay these wholesale rates and must pass the charges on to our customers.

Initial indications are that the Electricity Authority will take 2-3 weeks to review the event, however we understand that they make be reviewing this on Friday (today). We do not have a view on the likely outcome at this time.

There is a risk that this will occur again on Saturday.
