

Outlook

Maximising benefits from local electricity generation

[REDACTED]

I support the Electricity Authority proposals to improve export limits for small-scale distributed generation (DG) by:

- * setting a default 10kW export limit (with allowance to set lower limits where appropriate based on an industry-developed assessment methodology) for small scale distributed generation connections (up to 10kW capacity),
- * setting default voltage response settings for inverters (using Australian setting) and allowing for distributors to set different settings where appropriate.

Warm regards
Simon Cope
