Version control for variations to Schedule 1 of the Registry Manager Service Provider Agreement

Version	Variation #	Date	Annotation
1.1	1	28/04/2016	Update to clause 6
1.2	2	1/4/2018	Update to clause 2.1 and Table 2 due to an increase of disk capacity, and update the starting CPI index. Note: Tables 1 and 3 are now out of date, but retained as the original estimate.
1.3	3	26/06/2020	Update to clause 2.1: - Include a new row for the infrastructure starting from 1 July 2020, with \$12,581.41. Update to Table 2: - increase the disk resource from 15,110 GB to 16,958 GB - increase the backup capacity from 2,865 GB to 3,120 GB.
1.4	4	5/08/2021	Update to clause 2.1: - Include a new row for the infrastructure starting from 1 June 2021, with \$13,288.24. Update to Table 2: - increase the disk resource from 16,958 GB to 17,158 GB Note: Tables 1 and 3 are now out of date but retained as the original estimate.
1.5	5	29/06/2022	 Update to clause 2.1: Include a new row for the infrastructure starting from 1 July 2022, with \$15,467.89. Update to Table 2: increase the disk resource from 17,158 GB to 20,158 GB increase the backup from 3,120 GB to 3,663 GB. Note: Tables 1 and 3 are now out of date but retained as the original estimate.

1.6	6	29/09/2023	Update to clause 2.1: - Include a new row for the infrastructure starting from 1 October 2023, with \$15,528.79. Update to Table 2: - increase the disk resource from 20,158 GB to 20,358 GB Note: Tables 1 and 3 are now out of date but retained as the original estimate.
1.7	7	29/09/2023	Update to clause 3: - starting from 1 October 2023 increase the development hourly rate from \$160.00 to \$199.45. Note: Tables 1 and 3 are now out of date but retained as the original estimate.
1.7.1	7.1	01/06/2024	Update to clause 2.1: - Include a new row for the infrastructure starting from 1 June 2024, with \$18,402.60. Update to Table 2: - increase the disk resource from 20,358 GB to 23,358 GB - increase the backup capacity from 3,663 GB to 4,263 GB. Note: Tables 1 and 3 are now out of date but retained as the original estimate.
1.8	8	01/06/2025	Update to clause 2.1: - Include a new row for the infrastructure starting from 1 June 2025, with \$19,029.46. Update to Table 2: - Increase disc resource from 23,358 GB to 25,358 GB - Note: Tables 1 and 3 are now out of date but retained as the original estimate.

SCHEDULE 1 – version 1.8

FEES

- 1. The **fees** (exclusive of GST) are:
 - 1.1. the monthly fee in paragraph 2.1; and
 - 1.2. the fees under this **agreement** that are to be calculated in accordance with the hourly rates in paragraph 3;

less: any rebate(s) calculated in accordance with paragraphs 2.2, 6 and 7 of this schedule.

- 2. The monthly fee:
 - 2.1. The monthly fee is as follows (the "Monthly Fee"):

Monthly Fee		Starting Index		
	From 1 May 2017 until 1 April 2018:	\$10,903.16		
	From 1 April 2018:	\$12,042.91		
Infrastructure	From 1 July 2020:	\$12,581.41	1000	
	From 1 June 2021	\$13,288.24		
	From 1 July 2022	\$15,467.89		
	From 1 Oct 2023	\$15,528.79		
	From 1 June 2024	\$18,402.60		
	From 1 June 2025	\$19,029.46		

Services	\$39,025.75	1000
System	\$2,212.33	No indexing
Additional requirements	\$570.00	No indexing

1/04/2018 - Clause 2.1 Infrastructure row and all starting indexes amended variation #2

30/06/2020 - Clause 2.1 Infrastructure row amended variation #3

5/08/2021 - Clause 2.1 Infrastructure row amended variation #4

10/06/2022 - Clause 2.1 Infrastructure row amended variation #5

02/10/2023 - Clause 2.1 Infrastructure row amended variation #6 and Update to clause 3 development hourly rate variation #7

01/06/2024 - Clause 2.1 Infrastructure row amended variation #7.1

01/06/2025 - Clause 2.1 Infrastructure row amended variation #8

Table 1 – Estimated Infrastructure Service monthly fee from 1 July 2018

Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10
2018/19	2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27
\$11,097.08	\$11,291.00	\$11,485.00	\$11,678.92	\$11,872.83	\$12,066.83	\$12,260.75	\$12,454.67	\$12,648.67

2.2. To the extent it remains feasible to do so the **Provider** will use as much of the **Authority** owned **equipment** as possible until the commencement of the service provider agreement between the Gas Industry Company and Jade when the infrastructure is rationalised to support both the Gas Industry Company Limited and the **Authority's services**. This is expected to be 1 March 2018. While any **Authority** equipment is being used, the **Provider** will discount the infrastructure component of the monthly fee set out in clause 2.1. The amount of the discount will be calculated by multiplying the cost of the reduced **Infrastructure Services** items listed in Table 2 of this schedule by the rates for those items as set out in Table 4 of this schedule.

Example: Monthly rebate for using Authority owned DR and Test equipment	\$3,344.16	The actual CPI index for March 2017, to be inserted after 1 April 2017
---	------------	--

- 2.3. If the **agreement** is renewed in accordance with clause 4.2 of the **agreement** the System component of the **Monthly Fee** and the additional requirements component of the **Monthly Fee** will reduce to \$0 (zero) from 1 July 2024.
- 2.4. For the avoidance of doubt, the Services component of the Monthly Fee includes the Provider's management and preparation of the User Group, travel expenses of the Provider's personnel, venue and equipment hire, catering, name badges and stationery, but excludes travel and accommodation expenses (if any) for external speakers. The assumptions made about the User Group meeting are as follows:

- 2.4.1. Half day meeting of up to 100 users to be held in Wellington at a hotel or conference/meeting centre
- 2.4.2. Refreshments and light lunch (or drinks and nibbles after the meeting if held in the afternoon) will be provided by the **Provider**
- 2.4.3. The agenda will be confirmed with the **Authority** during the planning stages 3-4 months before the proposed date.
- 3. The hourly rates for unplanned chargeable work are as follows:

Resource	Hourly Rate (excl GST)	Starting Index
Project Management / Architect / Consultant / Designer	\$230.61	The actual Labour Market Statistics – Wage inflation – All
Development	\$213.74	Sectors index for March 2017, to be inserted after 1 April 2017
Auditor	Actual cost pass through	No indexing applies

It is expected that the **Provider** will agree to lower hourly rates for a major project, such as a major variation to the **System** under clause 7 of this **agreement**. Nothing in this schedule prevents the parties agreeing on lower hourly rates for the above resources or different hourly rates for specialist contractors for a major project.

4. Annual indexing

4.1. On 1 July 2018 and thereafter on each subsequent 1 July (each an "Indexing Date"), each component of the Monthly Fee in clause 2.1 that has a Starting CPI Index, the hourly rates in clause 3, and the infrastructure additional components fees in Table 4 that have a Starting CPI Index, will increase according to the following formula:

New fee = Current fee x (Current Index / Last Index)

Where:

New fee: the fee or hourly rate that will apply from 1 July in the relevant

year

Current fee: the applicable fee or rate that is specified in paragraphs 2 or 3 or

Table 4 or that otherwise applies immediately before the relevant

Indexing Date

Current Index: the relevant index (as published by Statistics New Zealand) for

the March immediately before the relevant Indexing Date

Last Index: the relevant index, (as published by Statistics New Zealand) for

the March 15 months before the relevant **Indexing Date**, or for any new fee added by variation, the Starting Index agreed in that

variation,

provided that where the ratio of 'Current Index / Last Index' is less than 1 (one), the new fee will remain unchanged.

- 4.2. To avoid doubt, any new **fees** calculated under this paragraph 4 shall be agreed between the parties in writing and shall not require a more formal variation to this **agreement** to take effect.
- 5. **Infrastructure Services**: The infrastructure component of the **Monthly Fee** is for the provision of all **infrastructure services** required to provide the **services**, to the specifications in Table 2 below.

Table 2 - Infrastructure specification

Server Specifications	Quantity	Operating System	vCPUs	Memory			
Production Database Server	Production Database Server 1		rver 4 32GB				
Disaster Recovery Database	Disaster Recovery Database 1		4	32GB			
Server							
UAT Database Server	1	Windows Server	2	16GB			
Production Web Server	1	Windows Server	4	12GB			
Disaster Recovery Web Server	1	Windows Server	4	12GB			
UAT Web Server	1	Windows Server	2	8GB			
Disk and Network Specifications	3						
Disk		20,358GB					
Backup		3,663GB					
Internet Usage		632GB / month					
WAN Usage		316GB / month	316GB / month				
Web Application Firewall and Ddo	s protection	Incapsula Enterprise 20	Incapsula Enterprise 20 + 1 additional site				
Software Specifications							
Complete SFTP Server		Enterprise Distributed Technologies					
SFTP Client		WinSCP (GNU General Public Licence)					
Jade DirMon - directory monitoring	Jade Software						
Winrar	Winrar						
PkZip25	PKWARE						
OfficeScan Anti-Virus	Trend Micro						
SSL Certificate		Comodo					

1/04/2018 – Table 2 Disk and Backup rows amended variation #2 30/06/2020 – Table 2 Disk and Backup rows amended variation #3

5.1. The ongoing **infrastructure services** costs will be charged at actual usage. For reference purposes the estimates are provided for years 2 (1/7/2017 to 30/6/2018) through 10 (1/7/2026 to 30/6/2027) are based on the estimated increasing disk and backup resource listed in Table 3:

Table 3 - Estimated Infrastructure disk capacity

	Year 1 2017/18	Year 2 18/19	Year 3 19/20	Year 4 20/21	Year 5 21/22	Year 6 22/23	Year 7 23/24	Year 8 24/25	Year 9 25/26	Year 10 26/27
(GB) Disk Allocation	11,505	12,146	12,786	13,426	14,066	14,706	15,347	15,987	16,627	17,267
(GB) Backup Allocation	2,069	2,182	2,295	2,408	2,521	2,634	2,747	2,860	2,973	3,086

5.2. The parties acknowledge that over the term of this agreement normal growth, functionality or usage changes may require the infrastructure services to increase beyond the specification in Table 3. Where such increases are necessary for the Provider to continue to provide the services any change in the specification and the Monthly Fee will be managed in accordance with clause 7 of the agreement. The Monthly Fee for any increase will not be higher than the fee for each infrastructure type in Table 4 below.

Table 4 - Infrastructure additional components fee

Description	Fee per unit per month	Starting Index
Server Base Charge (per server)	\$100.00	
Virtual CPU (per vCPU)	\$65.00	
Memory (per GB)	\$30.00	
Disk (per GB)	\$0.25	The actual CPI index
Backup (per GB)	\$0.30	for March 2017, to be inserted after 1 April
Internet Bandwidth (per GB)	\$3.00	2017
WAN Bandwidth (per GB)	\$2.00	
Incapsula - Enterprise 20	\$825.00	
Incapsula – Additional sites	\$82.50	

5.3. The fee for each infrastructure type in Table 4 will be reviewed immediately prior to 1 July 2021 and 1 July 2024 to ensure each fee reflects market fees current at the time of the

review. Any change to the fees in Table 4 will be managed in accordance with clause 7 of the **agreement**.

- 5.4. To avoid doubt, the fees cover all infrastructure services maintenance and support costs for the System (to the extent that those costs are required for the Provider to perform its obligations under this agreement). This clause is subject to clause 7 for any changed requirements.
- 6. Additional Requirements: The Provider has planned for the development and implementation of the agreed additional requirements to the system as specified in schedule G of the System Delivery Agreement dated 25 January 2017. The additional requirements component of the Monthly Fee in clause 2 is for the provision by the Provider for these enhancements. To the extent one or more of the additional requirements is not supplied by 3 December 2017 the fees will be reduced by a rebate calculated in accordance with clause 7 (Changes) of this agreement, but the reduction will be at least the cost assigned to the applicable additional requirement(s) detailed in schedule G.

12/9/2017 - Clause 6 amended variation #1

- 7. Third party innovation rebate: For any third party innovation (provided under section 22 of the non-functional specification) where the Provider's client(s) pays a fee to the Provider, the Authority shall be rebated a portion of that fee. The amount and timing of the rebate to the Authority shall be agreed on a case by case at the time each third party innovation agreement is agreed with the Provider's client. The underlying principle by which each case is to be agreed is that where the fee:
 - 7.1. is a one off fee, whether paid as one lump sum or paid as a series of payments with a fixed end date, the **Authority** will be rebated between 15-25% of the gross revenue for developing and implementing the service.
 - 7.2. is a subscription type of fee, the **Authority** will be rebated between 15-25% of the gross subscription revenue.
- 8. **Software maintenance and support costs:** To avoid doubt, the **fees** cover all third party software maintenance and support costs for the **System** (to the extent that those costs are required for the **Provider** to perform its obligations under this **agreement**). This clause is subject to clause 7 for any changed requirements.
- 9. Use of Authority owned hardware: The Provider may use the Authority owned hardware that it is using as at 30 April 2017 to provide disaster recovery and test services, to provide infrastructure services. The Provider may use the change management process in clause 7 of the agreement if the Authority owned hardware requires maintenance or capacity expansion. The Authority may choose at its sole discretion, to migrate to Provider owned infrastructure services instead of maintaining or upgrading its own hardware.
