This paper presents the proposed SRC's multi-year work programme and upcoming papers.

Note: This paper has been prepared for the purpose of the Security and Reliability Council (SRC). Content should not be interpreted as representing the views or policy of the Electricity Authority.

Work Programme

1. Purpose and background

- 1.1 This paper presents the SRC's work programme for the period 2021-23 as at the 2 March 2022 SRC meeting.
- 1.2 The purpose of this paper is to inform the SRC of the multi-year work programme and improve it with SRC feedback.
- 1.3 The objective of the work programme is to:
 - a) focus the SRC's attention using a risk-based method.
 - b) better coordinate the SRC's workload.
 - c) improve planning and budgeting for the secretariat to fulfil the SRC's workload.
- 1.4 The meeting themes are set out in Table 1 and the overarching themes in Figure 1. The SRC work programme for 2021-23 is set out in Table 2.
- 1.5 The associated input information is set out in Appendix A.

2. Changes to the multi-year work programme

- 2.1 There have been no further changes to the SRC's forward work programme since the last meeting.
- 2.2 The secretariat proposes to meet with the chair following the March meeting to discuss potential changes to the work programme out to 2025 and prepare an update for members to consider.
 - 2.2.1 Members may wish to consider appropriate topics to suggest in discussion on this agenda item, to assist the secretariat's preparation.
